ELECTIONS TODAY!

Fine Weather in Most of the States

Brings Out an Early and a Big Vote.

The Battle of Ballots as It is Being Waged—We Will Give the Result Tomorrow.

LOUISVILLE, Ky., Nov. 5—The eventful day in the state's political history opened with fair and cool weather. In this city there is a voting precinct for each 300 of the 39,000 registered voters, and at all of these booths from fifty to a hundred men were in line long before the polls opened. In this city the official ballot for state and municipal officers contains 225 names, beginning with four candidates for each of the state officers to be chosen. The vote, except for school trustees, is secret. For the offices last named, widows, having children of school age, are allowed to vote, but so far as known none of the women have taken advantage of this right. The polls close at 4 o'clock and it will take until nearly morning to count the vote of a precinct. The saloons are closed and will remain in that condition until 12 o'clock Wednesday morning.

FRANKFORT, Ky., Nov. 5.—The morning opened foggy, but the sun came out at 10 o'clock. White and colored voters were allowed to vote alternately. Big vote being polled.

LEXINGTON, Ky., Nov. 5.—A light vote will be polled as length of ballot makes voting slow. Scores of voters will doubtless be unable to vote. Republicans hopeful, democrats concede nothing.

JACKSON, Miss., Nov. 5—The weather here and throughout the state is warm and a heavy vote will be polled. The contest is too one-sided to cause much interest.

CINCINNATI, Ohio, Nov. 5—The weather this morning is delightfully pleasant, only a slight haze obstructing the brilliancy of the sun's rays to a very limited extent. The air is balmy and everything is conductive to comfort for the early voters. These flocked in unusual numbers to the polls both in the city and country. Reports from voting places at 8 o'clock both in the city and country showed an unusually large vote at that hour. In several places the vote polled at that hour was greater than at any previous election at the same hour. Unusual interest is shown in the election and appearances indicate that an unusually large per cent. of the registered voters, which is greater than ever before, will be cast.

CLEVELAND, Ohio, Nov. 5—Election day in this city dawned clear and pleasant. The voting during the early hours of the morning was comparatively light. This had been expected, however, as the registration was far below that of last year. It was evident that much scratching was being done on the county ticket by the republicans.

COLUMBUS, Ohio, Nov. 5—The weather opened good. Rain is predicted for the afternoon. Local interest in the state ticket and in the respective candidates for the United States senate, Brice and Foraker, one of whom is to be elected by the next legislature, has not been greater for many years.

HAMILTON, Ohio, Nov. 5.—Weather fine; very heavy early vote in city and county. Prospects for full vote. Campbell visited different precincts this morning.

DAYTON, Ohio, Nov. 5—The weather is bright and bracing. Every prospect of a large vote, judging by the increased registration and the attendance at the polls. There is an exciting struggle over the county ticket and for representatives.

MASSILLION, Ohio, Nov. 5.—The day is fine and a heavy vote is being polled. Coxey is likely to secure a handsome vote.

AKRON, Ohio, Nov. 5—This is an ideal autumn day and workers of both parties are out in force. The registration was unusually heavy but the voting up to 10:30 was rather light.

COLUMBUS, Ohio, Nov. 5.—Reports received at the state headquarters of the republicans and democrats up to noon indicate that there has been a larger vote polled during the forenoon than was ever known up to that hour. Both parties are confident now that they are getting out their full vote.

The reports generally state that the voters do not remain long in the booths and that party lines are being closely drawn with less scratching than expected. The republicans regard the fine weather which prevails over the state as well as the early heavy voting as in their favor and are claiming a large plurality on the state ticket as well as a majority in both branches of the legislature. The democrats claim that the large republican pluralities of the past two years were due to the democrats not voting and that they will get out their full vote today and at least reduce the republican plurality to its normal size.

Chairman Anderson, of the democratic state committee is not here today but others at his committee rooms claim that the result will be close on the state ticket and they are assured of a full democratic vote.

Chairman Anderson, of the democratic state committee, returned from Greenville at noon. He says Campbell will carry the state outside of Cincinnati, from the reports received today, but he has no indications from Cincinnati. At republican state headquarters they still claim a large plurality outside of Cincinnati, and that the latter will go largely republican.

BALTIMORE, Md., Nov. 5—The heaviest vote ever polled in Maryland is being cast amid scenes of almost unparalleled excitement, accompanied by occasional acts of lawlessness and disorder. The day is spring like and balmy. Both sides appear to have out their full strength and much bitterness is manifested among the watchers for both parties.

The first shooting affray of the day took place at the first precinct of the Ninth ward, before the polls opened, when John Smith, a democratic watcher, was shot in the left breast and slightly wounded by Horace E. Van Tassell, a republican. The latter was arrested.

Two hours later, in the same precinct, Chas. G. Baldwin, one of the watchers for the reform league, was severely scratched in the right eye in a fight which occurred in the attempt to arrest a reporter. Several arrests were made.

The managers of the "Evening News" predict that Baltimore city will give a majority of 10,000 votes for the republican ticket. The indications are that Mr. Hurst is more than holding his own in the counties outside of Baltimore and that whatever majority Mr. Townsend has must come from the municipality. This is claimed by the friends of Mr. Gorman, as an indication that the attack upon him has not been effective and the increased republican vote in Baltimore is the result of the failure of I. Freeman Raisin to hold his own. John Banks, chairman of the Cecil county democratic committee, telegraphed to the Associated Press that Cecil county will give Mr. Hurst 250 majority. This is more than double previous estimates.

DETROIT, Mich., Nov. 5.—The city election, like the campaign, is a very quiet affair. The early morning vote was light but towards noon much activity was shown in meeting the people at the polls and it now looks as though a heavy vote will be cast. The election of Mayor Pingree for a fourth term, together with the entire republican county ticket has been generally conceded, the only question being as to the size of the majority. The weather is brilliant and warm.

PITTSBURG, Pa., Nov. 5.—Very little interest was manifested in the election here today. There are no close contests and it is only a question of the republican majority. The weather was clear and mild. Up to 11 o'clock a very light vote had been cast.

PHILADELPHIA, Pa., Nov. 5.—Notwithstanding the fact that the weather is all that could be desired reports from all over the state indicate that a light vote is being polled and but little interest is being manifested in the election. The polls opened at 7 a m and close at 7 p. m.

OTTUMWA, Iowa, Nov. 5—C. A. Walsh, secretary of the state democratic central committee, interviewed while home to vote, practically conceded the election of Drake today. He said: "If he has over 40,000 plurality I will be fooled, but I think he will have something under, but near that figure. If it had not been for the Marshalltown convention adopting gold standard Babb would have been elected."

OMAHA, Neb., Nov. 5.—Election day dawned warm but cloudy. The crowd had gathered by the time the polls opened and considerable interest was manifested from the first. The attendance increases as the day advances. The indications are for the full registration being cast—17,500 votes. Both sides are watching narrowly.

OMAHA, Neb., Nov. 5.—Throughout the state election day opened murky and as warm as a July morning with the exception of the extreme western tier of counties, where a light snow and rain is falling. This condition insures a fair vote nearly all over Nebraska. In the larger cities where registration is required, the list is very heavy, representing the entire strength of the various parties, but this is the result of local issues and will not apply in the rural districts, where state candidates are relied on alone to get out the votes. In the country districts the vote will not be at all heavy owing to the absence of interest.

NEW YORK, Nov. 5.—Should there be a light vote cast in New York today it will not be on account of the weather, which could hardly be better than it is, but may be because of the unfamiliarity of the voters with the blanket ballot system. To overcome this, each party has erected stations near every polling place where voters are taught how to fold the papers, and, in particular, exhorted to risk nothing by trying to "scratch" the ticket.

The polls opened at 6 o'clock and up to noon there had been no disturbance anywhere. Police Commissioner Roosevelt and Acting Chief Conlin had stated that there was less colonization this year than ever before, but no chances were taken.

William C. Whitney voted at 7:30 o'clock. He was the fourteenth to cast his ballot in his precinct. Mr. Whitney took but little time in making his selections on the ticket Mayor Strong voted at the same booth half an hour later, the preparation of his ballot occupying about two minutes. Police Commissioner Theodore Roosevelt made brief work of marking and folding his voting paper at 7:30 a. m., and appeared in a particularly cheerful mood. So was ex-Police Commissioner Sheehan, who also voted early, supplementing the act with the announcement to his friends about the place that "this is going to be a landslide."

There has been some complaint that the police were not given relief from duty for a time sufficient to permit of their voting. An application for a mandamus upon the police commissioner to allow the officers the necessary time was made by a lawyer named Clumfield, acting on his own responsibility before Judge Beekman in the supreme court, but it was refused. Commissioner Roosevelt said to the court:

"We have done all in our power consistently with the preservation of the public welfare to permit these men to vote and a larger number of the force have voted today than at any previous election. We have reports from Chief Inspector Collin showing that at 1:30 o'clock 40 per cent. of the force had voted."

BROOKLYN, N. Y., Nov. 5.—Before 10 o'clock this morning nearly half of the voters in each election district have cast their ballots. A heavy vote is expected despite the registration being 10,000 short of last year.

CHICAGO, Nov. 5.—The election in this city today was for two judges of the superior court, nine trustees of the sanitary district and for or against what is known as the "Torrens land title system." There were four tickets in the field—republican, democrat, people's and socialistic labor. Comparatively little attention was paid to the two latter and republican and democratic leaders spoke of a woeful lack of interest on the part of voters.

The weather was all that could be desired. The police orders closing all saloons during voting hours and prohibiting electioneering withing 100 feet of the poling places were rigidly enforced for the first time and this contributed to the quiet of the day. Up to 11 a. m. not one-third of the registered vote had been cast, and the indications are for the lightest total vote in years.

Besides an apparent general lack of interest, the fact that more "suspect" notices were sent into what are commonly called the lodging house districts than ever before, aided in holding down the vote. So far there has been little scratching.

RICHMOND, Va., Nov. 5.—The democratic ticket will win easily throughout Virginia. A light vote is being cast and there is little enthusiasm shown. The cloudy and threatening weather has kept many of the voters home. Specials from Williamsburg say that everything is going to be democratic.

BOSTON, Nov. 5.—The election today is proceeding quietly both in this city and throughout the state. The weather is superb but up to noon the vote had been unusually light. Not much is heard of the A. P. A. vote, and the prediction is made that the scratching will not be greater that it has been in the past.

KANSAS CITY, Mo., Nov. 5.—Returns up to noon indicate but little of what the result will be in Kansas. As a rule a large vote will be polled.

OMAHA, Nov. 5—The rain and snow belt of the early morning has extended farther east and interfered somewhat with the attendance at the polls. In some of the larger cities some spirited contests are being waged between the two wings of the democratic party, and each side is doing its best to make a showing.

DES MOINES, Iowa, Nov. 5.—The weather seems to be good all over the state, and everything fine for election day. The general feeling here in both parties is that the vote will be lighter than at the last gubernatorial contest. The republican plurality will be about the same in proportion.

UPPER SANDUSKY, Ohio, Nov. 5.—A beautiful day, coupled with the hardest hustling ever witnessed here, is causing a heavy vote. The streets are alive with wire-pullers, but things are quiet. The republicans feel jubilantly hopeful, as the unusual amount of scratching indicates success for a part of the ticket. Some are enthusiastic enough to claim the entire county. The populists are pulling strongly from the democrats, and other influences are at work that almost insure the election of the republican candidates for representative, sheriff and commissioners. The democrats, however, claim a large majority for Campbell and the entire ticket.

SALT LAKE, Nov. 5—After 10 a. m. voting progressed more rapidly, and at the present rate a large vote will be polled. Many tickets are being scratched, and this will probably show against the republicans as the city is a republican stronghold Nothing definite has been heard from country districts. A large vote is being polled in Ogden.

CHICAGO, Nov. 5.—2:30 P. M.—It looks at this hour as though the republicans will succeed in electing all their candidates, with the exception of one or two of the drainage trustees.

A change of votes sufficient may be made between now and the hour for closing the polls to change the present outlook, but it is not expected.

The strict enforcement by the police of the regulations has resulted in producing one of the quietest election days ever known here. Not a bit of trouble has been reported to the police.

To Prevent Extinction.

LONDON, Nov. 5—The secretary of state for the colonies, Mr. Chamberlain, has received a petition from the planters of British Guina pointing out that they are suffering from the serious decline in the sugar industry and urging the necessity for prompt government aid to prevent the extinction of this industry in British Guiana.

THE GREAT NORTHERN

Railway Strike Not Making Much Headway.

Goodwin Denounced—Few Men Out at Spokane—Attempt to Fire a Railway Bridge.

KALISPIEL, Mont., Nov. 5.—Roy Goodwin, director of the A. R. U., who has been just released from jail, where he was sentenced by the United States court with E. V. Debs and others, called a meeting of that order here last night. Only ten employes of the Kalispiel division were present, the balance being men discharged from the service. It was voted to strike and Goodwin called the strike to take effect at 11 p. m. At the appointed hour the train crews responded promptly and when it was announced that Goodwin had called a strike they took a strong stand in favor of the company and expressed a determination to defeat the strike Goodwin was denounced as an agitator, unworthy of notice. His anarchistic speech at Spokane a few days ago lost him any supremacy he may have enjoyed among the railroad men.

SPOKANE, Wash., Nov. 5—The strike on the Great Northern is only partial at this place. The east bound passenger train went through on time and the officials claim that all trains are moving regularly. At the car shops at Hilliard, a part of the employes went out. The strikers claim that about sixty have gone out, but the master mechanic says the number is only eighteen, and of these six have returned.

SAN FRANCISCO, Nov. 5.—The threatened strike of the employes of the Great Northern railroad has caused no little comment among local railroad men and especially the members of the A. R. U. The dissatisfaction of the Hill men has a peculiar significance in this city, Oakland and Sacramento, inasmuch as it is generally admitted that on the success or failure of a strike on the Great Northern railway system at this time hinges the future of all organized railway labor west of the Missouri river. Incidentally it may be said that on the Southern Pacific railway system there has been unusual activity of late on the part of labor unions.

KALSPIEL, Mont., Nov. 5.—An attempt was made to wreck a Great Northern west bound passenger train near Columbia Falls. A torch was applied to a bridge just west of the big cut this side of Columbia Falls and the fire was just gaining headway as the train dashed onto the bridge. The engineer applied the air brakes and the train was stopped on the bridge. A reward of $500 have been offered by the Great Northern and $500 by Governor Rickards for the apprehension of the persons who attempted to wreck the train.

CLEVELAND, O., Nov. 5—First Assistant Grand Chief T. S. Ingraham, of the Brotherhood of Locomotive Engineers, who represents Chief Arthur during the latter's absence in Europe, said today that so far as was known at headquarters, the engineers of the Great Northern had no grievances whatever. He believed it highly improbable that they would in any way become involved or take part in any strike on the road.

MINNEAPOLIS, Nov. 5—There are some threatening aspects in the Great Northern strike situation, which lead to a belief that the strike may become general among the A. R. U. men on this system by tomorrow. The discharge of Engineer William Best, the hero of the Hinckley fire, is very distasteful to the men. Best was president of the A. R. U. at the time of the peril and at a meeting of the grievance committee it is charged that he was discharged for those reasons.

Don't Mention Them.

Prominently posted in the office of a certain nervous and somewhat eccentric inventor is the following notice: "I have my own troubles. Don't mention yours."

It is the nervous inventor's way of defending himself from the legions that bear down upon him to pour their sorrows into his ears till they drive him almost crazy. He is not so far wrong after all. Nine-tenths of the so called sorrows and afflictions of the race would be much better suppressed and not told to anybody, not admitted even to ourselves.

We say we must go to our friends for sympathy. Then we pour into their ears a tale of woe. We make the most of every little physical ailment and roll it as a sweet morsel under the tongue. We make the most of every petty annoyance that is not worth giving a second thought to. Every little loss, every little slight is treasured till it really becomes something, although it was not anything at all to speak of in the first place.

We are what we think we are. By this morbid, diseased vanity and craving for "sympathy," as we call it, we make ourselves a nuisance and life a burden to our friends, until they would as soon see a coffin come into their homes. If we don't think about our troubles and don't talk about them, they die out and become nothing. In any case, it is only morbid vanity and overweening selfishness that makes us distress our friends with our woes. Stop it. Take sunshine to your friends instead of black gloom. "They have their own troubles."

It looks as if some very rich gold mines were about to be developed up along the Alaskan line. Hurry up that boundary survey.

International politics promises to be lively in this country, with the Cuban, Venezuelan and Hawaiian questions all pressing at once.

HINSHAW MURDER CASE.

The Court Overrules the Motion for a New Trial

And Sentences the Prisoner to the Penitentiary for Life—Is Taken to the Prison South.

DANVILLE, Ind, Nov. 5.—Judge Hadley has overruled the motion for a new trial in the Hinshaw murder case and sentenced the prisoner to the penitentiary. The attorneys will appeal the case to the supreme court. Hinshaw was taken to the prison south today.

DOUBLE MURDER.

Man and Wife Found With Their Skulls Crushed.

Robbery the Motive of the Crime—The House Ransacked—Was a Baltimorean.

BALTIMORE, Md., Nov. 5—Captain Frederick Lang and his wife were murdered at their home on Franklin avenue, Gardenville, last night. Their skulls were crushed while they lay in bed and the house was ransacked. It is supposed that robbery was the incentive of the double murder. Captain Lang was a Baltimorean. He was about fifty years old and wealthy. He owned considerable property aside from a number of vessels.

CANAL COMMISSIONERS CHOSEN

President Cleveland Appoints Angell, Russell and Cooley.

WASHINGTON, Nov. 5—The president has made the following appointments: James B. Angel, of Michigan; John E. Russell, of Massachusetts, and Lyman E. Cooley of Illinois, to be commissioners to make inquiry and report upon the feasibility of a deep water canal between the great lakes and the Atlantic ocean, under the act approved March 2, last.

The deep water commissioners are require to meet and confer with a similar commission yet to be appointed by Great Britain or the Dominion of Canada, with reference to the creation of a deep water connection between the lakes and the Atlantic, and if any part of this channel shall fall within the lines of Canada they are to determine what treaty stipulations are necessary to insure the free use of the channel to citizens of the United States on equal terms with Canadians.

No salary is attached to the position of commissioner, although expenses are provided for. The commission as constituted ranks high in the estimation of engineer officers. Mr. Angell, who negotiated the Chinese treaty, is regarded as peculiarly qualified to treat the diplomatic question involved; Mr. Cooley is by profession able to pass upon the engineering features of the work, and ex-Representative Russell, of Massachusetts, is believed able to deal with the enterprise as a commercial project.

CLOSED ITS DOORS.

Failure of the Bellingham Bay Bank, in Washington.

NEW WHATCOM, Wash., Nov. 5.—The Bellingham Bay National bank has closed its doors by order of the directors, being unable to meet the county treasurer's demand for the county's deposit. No statement of assets and liabilities has yet been given out. The cashier reports the liabilities approximately at $105,000, of which $77,000 is due depositors. The assets are $187,000. President Morgan says the suspension is due to a steady withdrawal of deposits and a general feeling of distrust since the recent Tacoma bank troubles. The suspension of the Bellingham Bay National bank precipitated a run on the Bennett National bank, which continued until the close of banking hours. The directors held a meeting and adopted a resolution not to open this morning and directing the president to wire the comptroller of the currency to place the bank in the hands of the examiner. The directors say that within thirty days sufficient assets can be realized on to settle with all creditors.

INCENDIARISM HIDES MURDER.

Charred Corpse Found in the Ruins of a Barn Near Shelbyville.

SHELBYVILLE, Ind., Nov. 4—A mysterious fire occurred early this morning two miles from this city on the farm of Frank Love, in which a large barn was destroyed. When the flames subsided the charred remains of a man of middle age and average height were found in the ruins. It is thought the man was murdered, taken to the barn and the barn fired to conceal the crime. Fresh buggy tracks were found going to and from the barn.

Looking for a Murderer.

NEW WHATCOM, Wash., Nov. 5.—Fred J. Spiesman has been charged by the coroner's jury with the murder of his wife, and the police are now in search of him. Spiesman's house burned last night, and among the ruins was found the body of his wife. An investigation showed that she had been murdered and the house set on fire to conceal the crime.

Sugar Bounty.

NEW ORLEANS, Nov. 5.—The sugar planters, through Col. J. D. Hill and other attorneys, filed two sugar bounty claims suits in the United States circuit court, under the agreement with the Washington authorities, who will advance speedy trial and appeal to the supreme court.

Annulled a Marriage.

SAN FRANCISCO, Nov. 5.—Judge Troutt has annulled the marriage of C. W. Saunders and Mrs. Sadie Saunders, of East Boston, Mass., on the ground that Saunder was a minor when the ceremony was performed. Saunders, who is a son of Oliver H. Saunders, of Boston, testified that he married the woman, from whom he has been divorced, against his will, and has not seen her since.

DR. SMITH.

The Brave African Explorer Heard From at Last.

The Country Traversed is a Blank Space on the Map—Many Valuable Discoveries.

PHILADELPHIA, Nov. 5.—A cablegram was received in this city last night from Dr. Donaldson Smith, dated Aden, bearing the one word, "Successful"

This news establishes the safety of the plucky Philadelphian, who for the past year and a half has been exploring the wilds of eastern Africa, and at the same time puts an end to the doubt as to his safety, which had been felt by those interested in the expedition for the past few months. Dr. Smith entered Africa on the eastern coast a year ago last June, passed across the country of the Gallreas and Masai to Two Lakes, which had been recently discovered by another expedition; thence on to the Nyanzas (Albert and Victoria), his object being to carry out and complete the line of exploration from the lakes to the east coast, a distance of several hundred miles.

Dr. Smith was accompanied by 150 Africans, and at first by an Englishman who was subsequently obliged to return to London. Dr. Smith sent back some fine specimens of the regions for the Geographical society of London. Some months later he was reported to be pushing on by another party whom he met. Aside from these evidences of his safety there have been nothing until the arrival of his cablegram last night.

As the route which Dr. Smith has traversed is at the present time represented by a black space on the map of Africa the significance of the explorer's brief message will be realized immediately. He has undoubtedly made a great many discoveries of much value.

MISS VANDERBILT

And the Duke Will Have $250,000 a Year.

That is Her Marriage Settlement—The Duke in Luck—Information Refused.

NEW YORK, Nov. 5—All of the parties directly interested in the marriage settlement of Miss Consuelo Vanderbilt met at the residence of Mrs. Vanderbilt on East Seventy-second street today. The duke of Marlborough and his lawyer, W. Milward, were met at the house by W. J. Vanderbilt, and ex-Judge Henry Howland, representing the family. The Blenheim deeds, which dated from the reign of Queen Ann, were handed Mrs. Vanderbilt's lawyer to be copied and the memorandum of the bride was read and commented upon. All information on the subject was refused, but it is said, around the hotel corridors, that the yearly income which Mr. Vanderbilt has settled upon his daughter will exceed $250,000.

LONDON, Nov. 5.—The Standard says that the marriage of the Duke of Marlborough to Miss Consuelo Vanderbilt will be celebrated on all the duke's estates. The bells will be rung in all the churches and wherever he has property, and the employes will be given a holiday.

The newspapers here generally print the reports from New York of the preparations for the wedding; but the Sun, referring to the so-called rehearsal of the ceremony, says:

"The rehearsal was essentially American and vulgar; no clergyman here would permit it."

The Westminster Gazette this afternoon prints a cartoon headed: "The duke's return from the land of dollars." The cartoon represents the duke of Marlborough reclining in the stern of a pleasure boat, with his bride seated on the top of a pile of dollars.

ASA LIBBY.

A Former Partner of A. T. Stewart Found Dying.

NEW YORK, Nov. 5—Asa Libby, a retired merchant, who formerly was in business with A. T. Stewart, died suddenly at his home today. Mr. Libby was found unconscious in a room. A doctor was called in and it was found that the patient had ruptured a blood vessel. He never recovered consciousness and died soon after being found.

Summoned to Constantinople.

COLOGNE, Nov. 5.—A despatch to the Gazette of this city, from Berlin, says that Ahmed Twinf Pasha, the Turkish ambassador to Germany, has been summoned to Constantinople for consultation with the Turkish government, it is presumed, in regard to the eastern situation.

Joe Patchen Wins.

REIDSILL, N. C., Nov. 5.—The match race here today between John R. Gentry and Joe Patchen was won by the latter.

Fifteen Men Buried.

VIENNA, Nov. 5—The German theater building at Vienna collapsed today, burying fifteen workmen in the ruins.

In the Rainy river region of Canada it is interesting to know from the government surveyor that the gold belt is at least 400 miles long.

It is plain now—what many suspected from the first—that Corbett and Fitzsimmons never wanted to fight at all.

WILD RUNAWAY.

A Frightened Horse Dashes Between Two Houses.

Then He Jumps a Back Fence, Wrecks a Buggy, Injures the Driver and Runs Three Miles.

An exciting runaway occurred on East Washington street, near J. B. Blaising's meat market. The horse was attached to a buggy and driven by a farmer, whose name could not be learned. The animal frightened at some object and turning, dashed over the sidewalk and down the garden walk, between two houses so close together that the hubs of the wheels scraped the sidings of the buildings. Then it leaped the back fence, leaving the vehicle on the inner side, a total wreck. The driver clung to the lines and was pulled over the fence and painfully though not seriously injured. The animal was not caught until it reached the farmer's home, two or three miles east of the city.

DESPONDENT FARMER.

J. R. Goshart Hangs Himself in a Cow Shed.

After an All Night Search His Body is Found—His Knees Nearly Touched the Floor.

Nickel Plate trainmen tell of a suicide which occurred Sunday night at Burkett, a hamlet on that line about forty-five miles west of this city. J. R. Goshart, a well-to-do farmer, became despondent, and at times slightly demented, through sickness. At 11 o'clock Sunday night he left his home and not returning in due time, his wife went outside the door and called his name several times. Receiving no answer, the woman became alarmed and aroused the neighbors. All Burkett turned out and engaged in a hunt for the missing man. At 5 o'clock yesterday morning his body was found suspended from a rafter in the cow shed loft. His knees were only about three inches from the floor, showing that the man had tied the rope about his neck and then fell forward and strangled himself. Goshart left a wife and three children, the eldest seven and the youngest three years old.

NEW SOCIAL CLUB.

Members of the Knights of Pythias Form One.

Some thirty members of the various Knights of Pythias lodges of the city have started the organization of a new social club, the purpose of which will be social amusement and the improvement of its members. No one will be admitted to membership except Pythian Knights. Until the adoption of a constitution and by-laws and the perfection of a permanent organization, the club will meet at the rooms of Phoenix lodge, in the Aldine block. After that they will secure rooms of their own and furnish them. The new club is composed of the very best young members of the Knights of Pythias and promises to be one of the most popular clubs of the city.

NEW BRASS BAND.

The Organization and Election of Officers.

Last evening a new brass band was organized in this city with the following members: William Scheiferstein, Henry Langorh, Will Rupp, Fred Lenard, George Lenz, Henry Egge, William Miles, John Miles, Fred Menzen, William Dyhart, Charles Langorh, Charles Kaiser, Louis Schroeder, Charles Schroder, John Bayer. The officers to serve for one year were elected as follows: President, William Dyhart; secretary, Louis Schroeder; treasurer, John Bayer; librarian, Charles Schroeder; musical director, William Schneider. The band is composed of members who are experienced musicians and they have entered the field to compete with the older organizations.

The name of the new band is the Wayne Cadet band.

FARMERS' INSTITUTE.

Supt. W. C. Latta Issues Circulars to Officers and Speakers.

W. C. Latta, superintendent of the Farmers' institutes in Indiana, has issued his circular to officers and speakers, giving the schedules for institutes for the year 1895, under the auspices of the Purdue university school of agriculture.

The apportionment for local expenses this year will be $25, and it is expected that each place where an institute is held will provide a hall free of charge.

W. A. Fairfietd is the chairman of the institute which will be held in this city on December 16 and 17.

BARN BURNED.

A Team of Horses Also Perish—Fierce Fire on East Berry Street.

A barn in the rear of the residence of Mrs. Amanda Dawson, No. 140 East Berry street, burned last night at midnight. The fire was a fierce one. A team of horses belonging to the Fort Wayne Furniture company perished. They were valued at $200. The loss on the barn was $150; covered by insurance.

Big Suits.

NEW ORLEANS, Nov. 5.—Suits have been filed against the New Orleans Brewing association by the State National bank for $21,000, by the Metropolitan bank for $113,000. In the first case attachments were issued and in the last named case the appointment of a receiver is requested.

Hung Six Negroes.

HAVANA, Nov. 5—It is announced that the insurgents have hanged six negroes to trees in Plateabos, District of Cabarian, Province of Santa Clara. Near Guasimal, not far from Santa Epirtius, also in the Province of Santa Clara, the insurgents derailed a train by the use of a dynamite bomb. Three head of cattle, which with others loaded on the cars, were killed.

THE DEATH LIST.

Mrs. Eliza McLaren, of Wayne Township, is Dead.

Henry Reidt Passes Away at Portland—Death of Mrs. Elizabeth Shunk at Wanatah.

Mrs. Eliza McLaren died at her home in Wayne township, south of the city, yesterday noon from stomach trouble. She had been a sufferer for two years. Mrs. McLaren was sixty-five years old and leaves two sons. The funeral will be held at the residence at 2 o'clock tomorrow and later at the Prairie Grove chapel.

MADDEN.

CONSPIRACY IS CHARGED.

Petition for the Removal of the Trustees of an Indiana Concern.

WABASH, Ind., Nov. 5.—Application has been made by Solomon Wilson, of the Wabash Church and School Furniture company, for the removal of James Lynn, trustee, to whom the property of the company was assigned a month ago. Wilson, who was general manager, alleges that the financial difficulties were due to the mismanagement of the other directors, and that when the company became involved Mr. Lynn, who is a warm, personal friend of J. S. Daugherty, the president, was made trustee as part of a conspiracy to destroy the value of the business and freeze him (Wilson) out. It is also charged that the property, appraised at $56,000, is worth over $125,000.

THIS is an off year in politics and you can't even guess how the elections will go.

HOOSIERS are simply interested spectators in the elections which are held today.

IF you haven't already bet on the elections, don't do so, for in all probability you will be the fellow who will lose.

FORT WAYNE is enjoying a real estate boom just now. This is a sure evidence that business prosperity has returned to us.

THE states which hold elections today are given clear and pleasant weather. This means that a big vote will be polled.

IF men took one-half the interest in religion that they do in politics the devil would have been rooted out of Fort Wayne, tooth and toenails, long ago.

THE drought is injuring the growing wheat in this state. In many fields only a few spears of growing grain may be seen. What remains is withering for lack of moisture.

THERE are so many complications and purely local issues connected with the campaigns in most of the states holding elections today that it is almost impossible to make predictions as to the result. We can tell better how they are "going" when we have heard how they have "gone."

IN a speech before the republican club at New York, Mayor Strong, of that city, gave the following as his opinion of Sunday closing: "My idea is that the saloons should open on Sunday about 2 o'clock and stay open till 5 I am not very particular about the exact hours. Then they ought to close till 7, and then open again till 11 o'clock, when they should be closed until Monday morning. That is the law I advocate and the one I will endeavor to have passed."

LIEUTENANT GOVERNOR MORTIMER NYE, of Laporte, it is announced, is an avowed candidate for the democratic nomination for governor of this state. Mr. Nye has an interesting political career. He has been honored with prominent municipal positions, was a Cleveland elector in 1888, a member of the supreme court commission and a candidate for governor before the convention which honored Claude Matthews with the gubernatorial nomination. Mr. Nye was nominated for lieutenant governor by a decisive vote. He stands high in Masonic circles throughout the state, and has a large acquaintance, as well as enthusiastic personal following.

PREPARATIONS are making for the farmers' institute season. Every county in the state will have an institute under state auspices the coming winter, and many of the counties will hold independent meetings in addition, W. C. Latta, of Lafayette, who has the general management, says it is the desire to conduct the work in such a way as to make it in the highest degree helpful to the farming classes by imparting useful information, by inciting to greater effort and awakening a higher appreciation of the advantages and possibilities of rural life. The institute appointed for Allen county will be held on the 16th and 17th of December.

IN the murder trials of Holmes and Durrant much of the evidence upon which they were convicted was circumstantial evidence. Circumstantial evidence, when perfect in its chain, is the strongest evidence that can be presented in the court of justice. Witnesses testifying to facts which have come under their observation may be false, or their testimony so colored as to do great injustice, but the chain of circumstances necessary to fasten the guilt of murder upon a prisoner must be so complete as to exclude the possibility of mistake. The strength of circumstantial testimony is simply the strength of its weakest link, but when link by link the chain is forged complete in its strength from beginning to end, it cannot mislead an intelligent jury.

The decline in interest in county fairs is owing to the fact that there have been no new attractions of late years. The public got tired of looking at big pumpkins and beets and red and green "samplers" forever. The fickle human mind demands ever something new. For the past year this seemed in a measure to be supplied by hitching a Midway plaisance to the county fair. The boys yelled over it, especially if they fancied they were doing something naughty when they gazed upon it. But now the implement manufacturers have made a declaration of war to the knife against the Midway plaisance. They say it draws people away from looking at their beautiful, bright machinery, and they will enlist the virtue and respectability of the land in opposition to the bad show. Between the thrashing machine and the plaisance, however, we bet on the plaisance every time.

It is a pity that the families of American millionaires, those who have every opportunity to develop intellectual, moral and physical perfection, have, after all, no higher ambition than to astonish the gaping multitude by their display of mere money. Such an ambition is shared with them by the most vulgar and illiterate of the race.

FALL and WINTER OVERCOATS and SUITS.

THIS SEASON'S styles we mean. Don't let your Clothing speak of the past, but be up-to-date in fashion. Our extremely modest prices will enable you to do this, no matter how limited your purse may be. A warm Overcoat is a necessity.

A man don't look dressed and comfortable at this time of the year without a new Overcoat; neither does he feel so.

Ours are the neatest, dressiest, and best that we ever offered for the money. Shrewd men will look at them and save dollars this season.

It seems almost superfluous to say anything about our seasonable Suits when they speak so well for themselves. But if you don't know the changes in Clothing fashions since last Spring, our store is at your service.

No old Suits here.

No room for them.

In all the land, so far as we know, there's nothing to compare in variety and completeness with our Suits this season. The prices have been changed too. Don't cost near so much now for good Clothing as formerly.

GOOD THINGS TO EAT.

True and Tried Recipes From Good Cooks.

No Reason Why Your Home Should Not Have Good Things—Watch This Department Every Tuesday.

HOW DO YOU TREAT YOUR HIRED GIRL?

The Hon. Carroll D. Wright makes it known in his statistics that the United States contains 1,000,000 hired girls In view of this fact and of the hired girl's dependence for home happiness upon the Christian courtesy of the family in which she lives, we wish to ask the following questions of those who employ a hired girl:

How many of you say good morning and good night to her? How many of you greet her cordially on her return from an absence? How many of you speak of her in a homelike, family way to a guest when she enters the room, saying, "This is our Eda, who does so much to make our home a pleasant place," or something of the sort?.

How many take special pains to make the work lighter on Sunday, by simplifying the meals and arranging for her to go to those meetings of her church, which are about the only variety she has?

Who can account for the fact that good Christian people will pass a hired girl just as if she was a block of wood, not giving her even so much of a greeting as they would a household dog or cat?

Why should the hired girl be called the servant? To be sure, one who serves does that which is altogether honorable, but the term has fallen into a sort of synonym for servitude; would it not be better, therefore, to use the expression, our helper? A good, strong Saxon word that has uplift in it and no sense of degradation.

How many of them are asked to go to family prayers, and with all their traits and inconsistencies are remembered in the prayer that is duly offered? How many are fitted out with Bibles, if they have none, and are taught to read our language, if of a foreign birth? How many look carefully after the hired girl's room—to see that she has nice springs in her bed, a soft mattress, a rocking chair and every comfort that is found in the other rooms of the home? How many speak to her kindly about an extra good baking of bread or a nice dish in which she may feel a natural pride? We are all glad of recognition, and yet we often forget that those in humbler situations of life are just as glad to be appreciated as we in ours. Noting that, perhaps, the one whose work lies at the base of the health and the wholesomeness of the home is more acceptable than many a woman who is the mistress of the home.

WHOLE WHEAT BREAD.

Pour 1 pint of boiling water into 1 pint of milk; when the whole is lukewarm, add one compressed yeast cake dissolved in ½ cup of warm water; add 1 teaspoonful of salt and sufficient whole wheat flour to make a batter that will drop from a spoon. Beat well for 5 minutes, cover and stand in a moderately warm place for three hours. Then add gradually whole wheat flour to make a dough. When sufficiently stiff, take it out on the bread board and knead until soft and elastic. It must not be sticky. Now form it into loaves, put each in a greased pan, cover and stand aside for one hour, and bake in a moderate oven one hour if in square loaves, or half hour in a quick oven if in long French loaves. This is the recipe I use in my own home. We, however, bake most in stick pans—each stick is 6 inches in length and 1 in diameter.—S. T. R.

HASH CAKE.

One-half cup of butter, 2 cups of sugar, 1 cup of sweet milk, 3 cups of flour, 2 teaspoons baking powder, whites of 5 eggs. Bake in 2 layers in square tins. Filling for cake, 1 cup of raisins (chopped), 1 cup of nuts of any kind you wish, not chopped very fine; make a boiled icing of 2 eggs, 2 small cups of sugar; put enough water in sugar to dissolve it, cook until it hardens by dropping in water. Beat this syrup into the beaten whites, then add raisins and nuts, spread thickly between layers and on top; cut in squares for the table.—Mrs. S. K.

HICKORY NUT CUSTARD CAKE.

Cream, 1 pound of sugar, ½ pound of butter, add five eggs beaten separately, 1 cup of sweet milk, 1 pound of flour, 3 teaspoons baking powder; flavor with lemon; bake in jelly pans. For custard, place 1 pint of milk in a tin vessel, set in boiling water; add 1 tablespoon of corn starch dissolved in a little milk, 2 eggs, ½ cup of sugar, 2 cups chopped hickory nut meats well mixed together in boiling milk, stir, put between the layers of the cake while both are warm. This is excellent. --MRS S. K.

APPLES AND RICE.

This is a very nice dish for children Pare, quarter and core 4 nice large apples, put them into a saucepan with ½ cup of sugar and ½ cup water, cover, cook slowly until tender but not too soft. Wash ½ cup of rice in cold water; drain and cover with boiling water. Cook half hour, watching carefully, or until all the water has evaporated. Turn the rice in the center of a flat dish, arrange around the apples and serve warm.—Aunt Annie.

GINGER COOKIES.

One pint of New Orleans molasses, 1½ coffee cups of butter, 2½ coffee cups of sugar, ½ cup hot water, 2 eggs, 1 tablespoonful of ginger, 1 heaping tablespoonful of soda dissolved in the hot water. Mix stiff enough for a soft dough. Bake in quick oven. Put all together in a large bowl; put soda in hot water, then stir until molasses foams, then put in the flour. These will keep two months in a crock or tin vessel and are splendid —Mrs. S. K.

GINGER CAKE.

One-half cup sugar, 1 cup N. O. molasses, ½ cup butter, 1 teaspoonful each cinnamon, ginger and cloves, 2 teaspoonfulls soda in a cup boiling water, 2½ cups flour; add 2 well beaten eggs the last thing before baking. Can be baked in gem pans, or in layers and spread with icing; or put in fruit and you have a nice, cheap fruit cake.—Mrs. S. K.

CELERY SOUP.

Take 4 potatoes, boil and mash fine, 1 celery stock, cut in small pieces and stew until soft, butter size of an egg, salt and pepper, 3 pints water; stir all together and add 1 cup milk—is improved by adding 1 teaspoonful of Worcester sauce and 1 tablespoonful of catsup, but is good without —Mrs. H. C. Hartman, Maple avenue.

APPLE FRITTERS.

Pare, core and chop ten good sized apples. Beat 2 eggs without separating, and ½ cup of milk, ¼ teaspoonful salt and ⅔ of a cup of flour. Beat until light, add apples and 1 teaspoonful of melted butter; beat, add teaspoonful of baking powder. Mix and fry by dropping spoonfuls in hot fat. Serve with powdered sugar.—Good.

APPLES ON HALF SHELL.

Cut slices of bread into rounds, butter each and place them in a baking pan. Pare and core nice large apples; cut them into slices crosswise one inch in thickness, put one on each slice of bread, dust with granulated sugar and put in a hot oven. Bake 20 minutes, dish, cover with cream and serve.—Sallie.

CLAM SOUP.

One dozen or one pint of clams, 3 potatoes, 4 hard boiled eggs, 1 pint of milk, ½ pint of clam broth, add water to make a pint, 1 bunch of parsley cut fine; put potatoes in broth and cook. When done put in clams cut up fine and cook ten minutes; put milk and eggs in last.—Professional.

FRIED TURNIPS.

Pare and cut the new turnips into slices, crosswise, about a half inch thick. Throw them into unsalted water, simmer 20 minutes, drain. Dust with salt and pepper, dip into egg, and then into crumbs, and fry in smoking fat.—Cook.

FRIED APPLES.

Remove the cores from large ripe apples, cut them into slices ¼ of an inch thick. Dust them with sugar, stand aside ten minutes. Dip each in eggs, then in cake crumbs and fry in oil. Serve with powdered sugar.—H. N.

SUET PUDDING.

One cup suet chopped fine, 1 cup sugar, 1 cup sweet milk, 1 cup chopped raisins, 3 cups flour, with 2 teaspoonfuls baking powder sifted in, salt and nutmeg to taste. Boil 1½ hours and serve while hot.—G. P.

SAUCE.

One cup sugar, ½ cup butter, 1 egg, 1 teaspoonful cornstarch; beat together and add 1 cup of boiling water; flavor with vanilla.—G. P.

TIMES ARE GOOD

When Many Real Estate Transfers Are Being Made.

The activity in the real estate market is one of the best of indications of good times and this shows itself in Fort Wayne by the many transfers of property now being made. The following is the list as taken from the books of County Recorder Geo. Fickel, representing only the sales recorded with him since Saturday last:

Levi Crabil and wife sell to B F Harper lot 332 in Hamilton's fourth addition.

R S. Robertson sells to A. D. and Jos. N. Mason the 50 feet west of east 50 feet west of Griffith street, between Superior street and the St. Mary's river.

Louis E. Banet and wife sell to Frank L. Markey lots 20 and 21 in Eckert's addition.

J. D. Bond sells lots 169 and 170, in Williams' addition, to Catherine Miller for $8,000.

P. A. Randall to J. C. and J. Lynch, lot 6 in McCulloch's addition for $1,600

E. W. Cook et al. to the Tri State Building and Loan association, lot 34 in Zollars' addition for $800.

H. M. Williams to Tri State Building and Loan association, lot 31 on East Creighton avenue, for $400

E. P. Williams to Tri-State Building and Loan association, lot 244 in Williams' addition, for $700.

L. F. Curdes to Allen County Loan and Savings association, lot 87 in Zollars and Swayne's addition, for $450.

Deputy sheriffs raided a gang of ramblers in the east yards yesterday and arrested seven of them. Justice Hays sent them to board with the sheriff for fifteen days.

Should be Looked Into.

THOROUGH INVESTIGATION REQUESTED.

A BOLD ASSERTION.

Ever since Prof. Koch startled the world by promising to cure consumption with the Koch lymph and his complete failure to do so, the people have been looking for some discovery which would prove an absolute, certain cure for that dread disease. Over a quarter of a century ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, put in a claim for a medicine, which he had discovered and used, in his extensive practice, that would *cure* ninety-eight per cent. of all cases of consumption when taken in all its early stages. Time has proved that his assertion was based on facts gained from experience. His "Golden Medical Discovery" has cured many thousand people in all parts of the world, and Dr. Pierce invites all interested to send to him for a free book which gives the names, addresses and photographs of many prominent people who have willingly testified to the marvelous curative properties of his "Golden Medical Discovery." He has also written a Book of 160 pages on "Diseases of the Respiratory Organs," which treats of all Throat, Bronchial and Lung diseases, also Asthma and Catarrh, that will be mailed by the World's Dispensary Medical Association of Buffalo, N.Y., on receipt of six cents in stamps, to pay postage.

Consumption, as most everybody knows, is first manifested by feeble vitality, loss of strength, emaciation; then local symptoms soon develop, as *cough*, difficult breathing, or bleeding from lungs, when investigation proves that tubercular deposits have formed in the lungs. It is earnestly advised that the "Discovery" be taken early and the latter stages of the disease can thereby be easily avoided.

To build up *solid flesh and strength* after the grip, pneumonia, ("lung fever"), exhausting fevers, and other prostrating diseases, it has no equal. It does not make *fat* like cod liver oil and its nasty compounds, but, *solid, wholesome flesh.*

HOW NAPOLEON LOST

The True and Real Secret of His Downfall.

Lack of Reinforcement Changed Destinies of Nations.

Battles Lost in Our Own War in Same Way.

Reinforcement of Both Power and Strength.

The Great and Vital Need Always Present.

Napoleon looked in vain for his general to appear when the tide of Waterloo was at its height. He did not come and that great Conqueror lost the field; France was checked; the fate of Europe was changed and the tide of human history found a new direction.

So in the long, fierce war of the Rebellion, many a field was lost or won as needed reinforcements came, or failed to come.

So it is in the natural world:—the shower grateful to the parched earth, the sunshine wooing the green shoot, the wind that cools or warms at the right time, all help keep nature fresh and beautiful. In the realm of health the same law prevails. There are parching drouths and destructive floods to be provided and guarded against; and when they come, they have to be robbed, as far as possible, of their effects.

Prevention in all these cases is better than cure.

Save the battle in advance.

Provide the relief before it is needed.

It is less expensive and far more beneficial from every view.

Reinforce nature. Help her to keep normal and healthy.

Take care of the blood and nerves, and we shall have no fear of disease.

Dr. Greene's Nervura blood and nerve remedy has stood the test of many years for this purpose. It has no rival as a wonderful restorative. It has no equal in the purification of the blood, the strengthening of the nerves and for preventing all the ills which threaten at this season of the year.

Try it and be assured. It is the great reinforcement of strength, power and vigor of nerve, brain and body. It will make you well and strong.

Why waste time in trying uncertain and untried remedies, when here is a physician's prescription, a discovery made by the greatest living specialist in curing nervous and chronic diseases, Dr. Greene of 35 West 14th St., New York city. If you take this medicine you can consider yourself under Dr. Greene's direct professional care, and you can consult him or write to him about your case freely and without charge. This is a guarantee that this medicine will cure, possessed by no other medicine in the world.

SUNDAY SCHOOL WORKERS.

An Interesting Meeting Held in Perry Township.

The Perry township Sunday school organization convened at the M. E. church at Huntertown on Friday and Saturday, Nov. 1 and 2.

The first session was called to order at 7 p. m. by B. W. Hart, co organizer, when H. Surfur, township president, took the chair and appointed A. Staley, secretary pro tem.

After singing and devotional exercises, B. W. Hart, in a very interesting way, presented "Sunday School Work in Allen County," after which J. W. Hursh gave an address on "The Ideal Teacher," which showed his earnestness and proficiency in all school work. The convention then adjourned until Saturday at 9 a. m.

The devotional exercises of the next session were led by A. D. Craig, after which the subject of "Grading in the Sunday School" was introduced and fully discussed by members of the convention.

Miss Sylvia Warcup then recited a selection. E. A. K. Hackett gave an "Address to Workers." Reports of schools were then called for, and five of the seven in the township responded, all reporting good work done. A nominating committee was then appointed by the president, when the convention adjourned until 1:30 p. m.

The devotional exercises of the last session were led by Rev. Lewellen, after which B. W. Hart gave an address on "Ways of Working," introducing many new thoughts.

A recitation by Master Warner was then listened to, and a duet by the Warcup sisters. Mr. Craig then gave an address on "Should Church Members and Parents Attend the Sunday School?"

The report of the nominating committee was then called for, which was as follows: Vice president, J. D Gloyd; secretary, Miss Lavon Chapman; treasurer, John Warner; musical director, Miss Carrie Warcup. It was moved and carried that the report be adopted.

Pledges were then taken for support of Sunday school work in Allen county, and after singing by the M. E. choir, which had rendered music throughout the entire session, the convention adjourned sine die.

LAVON CHAPMAN, Secretary.

ROUTINE BUSINESS

Transacted by the Board of Public Works at Yesterday's Meeting.

The board of public works was in session yesterday afternoon. Vouchers for the October expenses were signed. The assessment roll for an alley between High and North streets was approved, also the assessment roll for the opening of Jane street. The assessment roll for the vacation of an alley between Cedar and McCulloch streets from Summit street to Maumee avenue was laid on the table for further investigation.

Clerk You was instructed to open correspondence with a number of other cities for the purpose of ascertaining the terms upon which street railways are operated elsewhere. The board does this in order that it may arrive at a solution of the street railway problem in this city.

IN TEXAS

Occurred Two Bad Railway Wrecks Yesterday.

Engineer Instantly Killed—Fireman Scalded and Passengers Badly Shaken Up.

DALLAS, Tex, Nov. 5—The southbound train on the Gulf, Colorado and Santa Fe, and Missouri, Kansas and Texas railroads both tried to make the crossing near the Packery at the same time at about 6:50 o'clock yesterday morning. The "Katy" engine got across first, and the engineer seeing that the Santa Fe engine was going to strike his train, very skillfully stopped the baggage car over the crossing to receive it. The "Katy" baggage car was smashed up and the smoker attached derailed and turned half over. The engine and the coaches remained on the track. The engine of the Santa Fe was derailed. Several members of the latter's crew and a number of passengers received nervous shocks and were considerably shaken up, but nobody was injured. Even the baggage agent on the "Katy" car, that was knocked into kindling wood, escaped uninjured.

The regular northbound passenger train on the Missouri, Kansas and Texas was wrecked yesterday about four miles from Waxahachie, between that place and Steritt, which resulted in the engineer being instantly killed, the fireman scalded, and a number of passengers more or less injured, none seriously.

MASONIC SIGNS DON'T GO.

Remarkable Case of Contempt Alleged by a Hoosier Jurist.

ANDERSON, Ind, Nov. 5—William H. Freeman was placed under arrest yesterday morning in the superior court under singular circumstances. He had a brother on trial. Judge Diven, who was on the bench, asserts that Freeman took his place beside the brother, and knowing that he (Diven) was a Mason, began to give him the Masonic signs, presumably to influence the court He was ordered placed under arrest and he will come up today for a hearing He is the principal stockholder in and manager of the hoop works, at Hemlock, Howard county. He denies having given any signs and will fight the case a thing that may result in making public the Masonic signs.

Couldn't Stand Upright.

June 11th, 1894.

THE DR. J. H. MCLEAN MEDICINE CO.,
St. Louis, Mo.

GENTLEMEN: For about ten years I suffered with a pain in my back which I thought was caused by a strain. Sometimes it got so bad I could not stand upright or ride in my buggy. I read in your almanac of symptoms that I recognized as my own, which led me to the conclusion that my trouble was disease in the kidneys. I immediately began using

DR. J. H. MCLEAN'S LIVER AND KIDNEY BALM.

It proved to be the right medicine and reached the spot. I soon lost all pain and have better health than ever before. It is more than a year now since I quit using it and have not had a pain or sick day in all that time. It is certainly a wonderful medicine for the kidneys.

Yours truly,

Wasn't built in a day; but 'twas built to endure—'twas begun honestly, has grown honestly, is growing honestly. We've been pegging away for years; giving all our time, thought, energy to better storekeeping, wider stock offering, better value giving, etc., etc. Our tools have been whetted on the stone of experience, our chisels have been sharpened by earnest endeavor; ambition has transformed the phantom of responsibility into successful reality. We are in need of more room. We are now building an immense Warehouse on Lewis Street, just back of our mammoth store, which will be completed by Nov. 15th. We have train loads of Furniture coming from the manufacturers.

Economy In Fuel.

The Eureka Fuel Economizer is a scientific preparation which augments the intensity of coal and wood heat in the proportion of 33 per cent.

If the direction printed on each package is carefully observed, the Eureka will give to any ordinary or middling coal the same value as that of superior quality.

The Eureka prevents the shoots, the cinders and the formation of smoke, which may spoil, in an apartment, so many valuable articles, such as curtains, paintings, etc.

The Eureka burns any kind of gas which might destroy the breathable air.

The Eureka Economizer produces a heat more soft and more concentrated.

We guarantee that our preparation produces no injurious effect on the health, and does not affect in any way stoves, ranges, grates, etc.

To try it is to be convinced that our product is a triumph of success.

On receipt of 25c we will mail you a full size sample package, bearing very explicit direction charges prepaid.

ANOTHER LINK

In the Evidence Against the Kessler Train Robbers.

Brown Points Out the Spot Where the Papers Were Buried—Local Affairs.

Another link in the chain of evidence that one of the Kessler train robbers has been captured was established yesterday afternoon by the digging up of papers that were stolen at the time of the robbery. James Brown, who was arrested for the Chicago and West Michigan hold-up a few months ago and was brought to Albion last Saturday, gave conclusive evidence that he is one of the gang. He went with Sheriff Simon and Prosecutor Glatte to a spot on the farm of Lum Cain, about three miles east of the scene of the hold-up, and one mile north of the railroad, where, near a spring, he pointed to a log about two rods distant where he said the papers would be found. About a foot below the surface at the spot indicated the package was found. They were express papers and some money orders. The canvas sack had rotted away, and the outer edges of the papers were decayed, but many parts of them were plainly legible. Brown says it was at that place where he and the Smalleys stopped shortly after committing the robbery. At daylight they counted the money, about $16,000, and each took $5,000. Brown says Abe Smalley is in Montana. He is a thorough desperado, and his rule has always been never to be taken.

LEFT THE ARMY TO BECOME A BRAKEMAN.

Lieutenant Charles Hines, who left the United States army to enter the railway service, recently visited Washington and the Evening Star, of that city, devotes a column to a sketch of the young man's career. The paper states that the lieutenant began as a freight brakeman on the Big Four a short time ago and has already arisen to the position of yardmaster at Anderson, Ind. He believes that the railroad business will increase in importance with the growth of the country, and that one of the most marked advances in this line will be the development of great terminals. If this be true the yardmaster becomes a more and more necessary and important functionary in the great railroad system.

ELECTRICITY A COMMODITY.

Electric power is to become a commodity and be retailed in package and quantity to suit purchaser, the same as butter or sugar. A Chicago firm has organized for the purpose, with a capital stock of $10,000,000. From Niagara Falls the electric fluid is to be run into storage jars, corked up and shipped to the consumers. This vast force is estimated at $80,000 horse power—at least that is the alleged amount of power harnessed by the company which has been working at the task for some years. One of the patrons of the Chicago firm will be the North and West Side street railways.

FRICK'S BIG PURCHASE.

The H. C. Frick Coke company has purchased the property of the McClure Coke company for $4,000,000, thus virtually consolidating the coke interests of Pennsylvania and Ohio. It is believed that the result of the deal will be a rapid advance in the price of coke.

VOTED AID TO A RAILROAD.

At the election held Saturday, to determine whether $22,000 should be appropriated by Salamonie township, Huntington county, in aid of the proposed Indiana Central railroad, extending from Union City to Huntington, 618 votes were cast—328 for and 290 against the proposition. Considerable feeling was worked up among the voters, many of whom were bitterly opposed to subsidizing corporations.

BRIEF MENTION.

P. Walsh, painter at the east car shops, is sick.

J. B. Ryan and A. A. Greenich, Pittsburg firemen, are sick and off duty.

The anti-pass agreement of the western lines is to be continued another year.

Machinist Frank Frary, of the Wabash shops, has returned from his western trip.

L. Linker has been transferred from the Lafayette street works to the east car shops.

Herman Arens went to Fon Du Lac yesterday to set up a gas tank for the Kerr Murray works.

Conductor H. W. Billings and Brakeman Joe Hamilton, of the Nickel Plate, are off duty for a rest.

M. E. Bawn, Nickel Plate brakeman, has returned from Fort Seneca, Ohio, where he visited friends a few days.

Master Mechanic W. W. Atterbury went to Chicago this morning on business for the Pennsylvania company.

Inspector F. Lauer, of the Pittsburg, has gone to Valparaiso to relieve F. Shurick, whose mother died yesterday.

Thomas Sinclair, clerk in the Pittsburg paint shop, has moved from Butler street to 333 South Harrison street.

The railways of Pennsylvania give employment to 176,228 persons, and disburse annually to employes $99,183,991 55.

Ira Shives, who operates a circular saw in the Bass blacksmith shop, is off duty to attend the funeral of his grandmother.

Oscar B. Judy, assistant foreman of the Pittsburg blacksmith shop, was at Pullman yesterday on business for the company.

C. D. W. Hilker has a broken bone in his right hand and is absent from his post of duty in the Pittsburg lumber yards.

Col. Oran Perry, on November 1 commenced his twenty-first year as general agent of the Pennsylvania lines at Indianapolis.

Fireman F. V. McGinnis, of the Nickel Plate, has gone to Youngstown, Ohio, in response to a telegram announcing the death of his father.

Conductor Hilbish, who has charge of a Nickel Plate local freight between Leipsic and Bellevue, has taken a lay off and Conductor John McVey has his run.

Joe Harris came home yesterday from Dayton, Ohio, where he inspected some cars the Barney & Smith company built for the Pennsylvania company.

Frank Cairnes is again detained from his duties in the Pittsburg machine shop, his wife having suffered a relapse. Her illness has developed into typhoid malaria.

Under the improved methods of baling cotton, 50,000 pounds can be loaded in a car in lieu of 17,000 pounds, which is a great item when cars are as scarce as at present.

August Grenzebach and H. C. Meyers, of the Pittsburg blacksmith shop, are off duty, the former on account of sickness and the latter to attend a funeral.

The Minnie Maddern troup left this morning for Jamestown, N. Y., going by way of the Grand Rapids to Decatur, thence by the Chicago and Erie to their destination.

B. H. Martin went to Knox yesterday to relieve A. O. Spayd, of the local freight running between Knox and Stony Island. Spayd will take a through freight run.

George H Seybold and Julius Laboub are two new names on the Nickel Plate's pay roll. The owners of the cognomens commenced work yesterday as roundhouse laborers.

Wm H. Bendure has resigned a position in the east car shops and returned to his old position in the Fort Wayne Furniture works, which he filled for seven or eight years.

The sick list at the Kerr Murrey works yesterday contained the names of Otto Snyder, Conrad Seidel, August Tremmel, Charles Braden and H Engbers. None are seriously ill.

After a week's illness, J. H. Coffee has returned to his duties in the Wabash shops.

Clark Orr, formerly of Orr Bros, the dealers in electrical supplies, has returned to his old position in the electric works.

Henry Mollett and Henry Swartz, patternmakers, have taken employment at the electric works. Business at the works is booming.

F. S. Hunting, chief of the engineering department of the electric works, has returned from a business trip in the south and west.

John Woodward is again an employe of the electric works and is engaged in Foreman P. Bosworth's room. For some months Mr. Woodward was in Elkhart.

The late heavy rains in Pennsylvania have enabled the Pennsylvania Railroad company to take off its water trains, which have been running several weeks to supply locomotives with water.

G. H. Wilcox, who resigned as painter in the Pittsburg shops with the intention of going to Portland, Ore., did not get any farther west than Chicago. He came back here Saturday and yesterday took a situation in the Bowser Oil Tank works.

Mrs. Adolph Wilde, of Chicago, is visiting friends on Smith street and looking for a house with the intention of moving down here. Her son is a fireman on the Pittsburg road and this city is his headquarters. He is urging his mother to come here to live.

John Niebel is one of the prosperous and hard working machinists in the Pittsburg shops. One of the evidences of his thrift is the purchase of a lot on East Williams street, upon which he is preparing to erect a seven room house, which, when completed, he will occupy.

It is stated that William Hogdon, who recently left the Baltimore and Ohio lines to become general freight agent of the Cleveland, Akron and Columbus, is to be appointed general freight agent of all lines owned by the Brice syndicate, under H. C. Parker, traffic manager.

Samuel Higgins, superintendent of motive power of the Lehigh Valley road, has commenced the building of a locomotive which he thinks is to be a record breaker. Several novelties are introduced in its construction. The engine will weigh 128,000 pounds; waight on drivers in working order, 90,000 pounds.

There was a happy gathering of twenty-five or thirty jolly people at the home of Mr. and Mrs. H. W. G. Heine, 141 Wallace street, last evening, the occasion being the celebration of the host's birthday. Music, dancing, cards and general social chat served to pass the early hours and at 11 o'clock lunch was served. Mr. Heine is a boilermaker in the Pittsburg shops.

Yesterday's shipments from the electric works included a 1,000 light alternating dynamo to Amesburg, 1 500-light dynamo to Battle Creek, Mich.; an 125-light arc machine to Providence, R. I., and a 3,000 light triphase alternating current machine to Utah. The latter dynamo is an immense affair, weighing over fifteen tons.

THUMB BADLY INJURED.

Mr. VanNast, an employe of the Olds works, bicycle rim department, had the misfortune to run a splinter in one of his thumbs to the depth of an inch and a quarter. The piece of wood was an eighth of an inch thick and it made a bad wound the full length of the thumb. Dr. L. T. Sturgis attended the unfortunate man.

MERCHANDISE BURNED.

A car in the eastbound local freight train, on the Wabash, caught fire at Gaar Creek station, near New Haven, this morning and was completely destroyed, together with its load of merchandise. The freight train stood on a siding, giving the main track to No 45, the westbound passenger train, but the heat of the burning car was so intense that the passenger conductor was afraid to run his train by lest it, too, caught fire. The train was, therefore, a half hour late in reaching this city. The loss to the railroad company will not be known until the value of the merchandise is learned.

MAN AND WOMAN INJURED.

Lake Shore trainmen and passengers on the train from the north, which reaches this city at 3:55 o'clock, yesterday witnessed a bad runaway at Stoners, a small station twelve miles from this city. The victims to the accident were an old farmer and his wife, whose name the trainmen could not learn. Their horse took fright at the train and ran away, throwing the old people out and wrecking the vehicle. When the train pulled out the poor old couple were still lying in the ditch as still as corpses and their overturned buggy laid partially over them. They were evidently, badly injured, possibly killed.

Persian and ribbed velvet ribbons are among the novelties used for dress trimmings.

Wool braid with a corded edge is used in place of velveteen for the bottom of dresses.

"Chiffon brilliant" is a new substitute for chiffon. It comes in all colors and is very glossy.

The new capes for winter are made of velvet, not so full as they were formerly, and cut long enough to extend well over the hips, while additional warmth is given by a large fur collar.

Black satin petticoats, warmly lined with flannel and gored somewhat after the style of an umbrella, so that they button on to the lower edge of the corset, are indispensable additions to a stout woman's outfit.

Galloons, in many widths and varying prices, are used for trimming, and braiding on cloth gowns for morning wear is in vogue again. Basques and vests are braided all over in a pattern or with a simple coil on the edge.

The latest evening dresses are literal copies of the Marie Antoinette gown, with very full skirts gathered on to a low cut waist pointed in front and round in the back. The sleeves are two short puffs hanging like ruffles from the shoulder, and the hip pads are not omitted.—New York Sun.

An

Idea of the extent of our stock of fine business and dress suits and overcoats for men can be obtained by comparing what you find at SAM, PETE & MAX'S with what you can get in other stores. We have a larger stock of Fine Suits and Overcoats than you will see in any other two stores in the city. Our

To that effect can be implicitly relied upon. The greater number of our fine suits and overcoats were made up from designs created expressly for us by the largest and best manufacturers of fine clothing in America, and it

Is

A fact well known in Fort Wayne and throughout the section generally, that our fine clothing can not be duplicated by other houses, simply because they do not buy it. They do not buy it because they have no demand for it. When

Man buys a suit of clothes or an overcoat he wants to know that he is getting something cut in mode, in the prevailing fashion, no matter what price he pays for it. It costs no more to have the style and fit right than to have them wrong. We consider ourselves under

A WORD ON HATS:

Don't be numbered among the foolish people who think that it costs $5 to own a first class Derby hat. It doesn't. The only difference between the high priced hat and the right priced hat is that in the crown of the former you get a fashionable hatter's name. The hats we sell at $3.50 and $3.00 are as good in every respect.

Dr. Drayer, the city bacteriologist, made a report to the mayor yesterday regarding diphtheria in the city. He reports that there are but seven cases in the city. This would show that the disease is not so prevalent as it was a short time ago and the condition is one that is highly pleasing to the people.

Officers Flickinger and Stoll took R L. Atterbury, the alleged confidence man, to Albion, Ind., this morning. It was in Noble county that the alleged swindle was committed. Atterbury is the man who worked the short change racket on C. S. Latta, of this city, on a Grand Rapids train, as reported in THE SENTINEL yesterday.

Moellering & Son, of this city, did some public work in Hartford City and deposited a $500 check as a guarantee that it would be properly done. Now the city council has appropriated the check, claiming the work was not performed according to contract. Moellering & Son will contest the matter and there will likely be a big lawsuit.

Adolph Feustel, who drives one of the delivery teams for Grocer F. P. Mensch, was on Berry street Saturday night delivering groceries, when the horse became frightened, turned about suddenly and threw Feustel out of the vehicle. The wheels passed over his legs, bruising and skinning them badly but not breaking any bones. The horse was caught before any damage to the rig occurred.

Officer Foulks bears the appearance of having had an entangling alliance with a wind storm. He is now able to meet his most intimate friends without being recognized. The wind cannot blow through his moustache any more because he has no moustache now for to blow through. A few swift, skillful and artistic strokes of the barber's trusty razor made Officer Foulks a changed man.

The mission festivities of the German Reformed Emanuel's church Sunday were celebrated with much interest. The 235 chairs in the hall of the White block were all occupied in the morning and only ten were vacant in the evening. Dr. C. Schaaf spoke to the Sunday school in the morning, to the Ladies' Aid society in the afternoon and preached both morning and evening. The doctor spoke with perhaps a little more than his usual eloquence. All felt that they had enjoyed a great day. We hope there was some zeal awakened for the good cause of missions.

The promoters of live stock shows and fairs ought to stir their brains to find something new and inviting for next year, else such exhibitions will become in every sense flat, stale and unprofitable. Pleasing novelties in the way of their legitimate attractions, too, will be much better than fake side shows.

HOME-MADE CIGARS

Are Sold More Than Any Others In This City.

The Federation of Labor Committee Makes a Canvass of the City—Their Report is Favorable.

The committee sent out by the Federation of Labor to make a canvass of the city for the purpose of ascertaining the comparative amount of sales of homemade cigars and cigars that are shipped in from other places has completed its task.

A thorough and complete canvass was made. It is thought by the committee that nearly every dealer in the city who handles cigars has been interviewed upon the subject. The committee will make a report to the federation at the meeting next Friday night and the report will be a gratifying one.

It has been found by the committee that home made cigars have the largest sale and that the city at large is fair to union-made goods. The leading hotels handle outside cigars almost exclusively, their reason being, as stated by them, that the traveling public prefers them to local brands in any city. The down town drug stores also extensively handle outside goods. But the committee finds that away from Calhoun street the demand for home cigars is largest and the dealers carry very few of any other kind. Drug stores, groceries, cigar stores, etc., outside the center of the city and in the suburbs say they have very few calls for anything but home cigars. A few saloons carry outside cigars but they are nearly all kept in a show case and are offered for sale only when they are called for.

Taken in a general way the report of the committee is favorable and shows that the people of Fort Wayne are in favor of patronizing home industry and that they are fair toward union labor.

A Successful Concern

Does not say much. Its success is the best evidence of public appreciation.

Merely talking of low prices and exceptional bargains does not satisfy buyers—the "doing of it" is the thing that brings and holds the trade. Our success is the result of our honorable, consistent business methods. These are explained in the few words—honest work, honest prices, fair treatment.

We Have an Attractive Store,
We Display Substantial Goods,
Our Prices Are the Lowest.

When you buy from PICKARD BROS., you can always rely that the goods you have selected will be delivered—not something just as good—and our store is an immense one. Should you want a Bookcase, a Couch, a Parlor Suit, a Dining Table, a Lady's Desk, a Sideboard, a Parlor Table, a Bedroom Suit, or, in fact, any article essential to complete house furnishing, you should call upon us. See our line of

This is an off year in politics and you can't even guess how the elections will go.

HOOSIERS are simply interested spectators in the elections which are held today.

IF you haven't already bet on the elections, don't do so, for in all probability you will be the fellow who will lose.

FORT WAYNE is enjoying a real estate boom just now. This is a sure evidence that business prosperity has returned to us

THE states which hold elections today are given clear and pleasant weather This means that a big vote will be polled.

IF men took one half the interest in religion that they do in politics the devil would have been rooted out of Fort Wayne, tooth and toenails, long ago.

THE drought is injuring the growing wheat in this state. In many fields only a few spears of growing grain may be seen. What remains is withering for lack of moisture.

THERE are so many complications and purely local issues connected with the campaigns in most of the states holding elections today that it is almost impossible to make predictions as to the result. We can tell better how they are "going" when we have heard how they have "gone."

IN a speech before the republican club at New York, Mayor Strong, of that city, gave the following as his opinion of Sunday closing: "My idea is that the saloons should open on Sunday about 2 o'clock and stay open till 5 I am not very particular about the exact hours. Then they ought to close till 7, and then open again till 11 o'clock, when they should be closed until Monday morning. That is the law I advocate and the one I will endeavor to have passed."

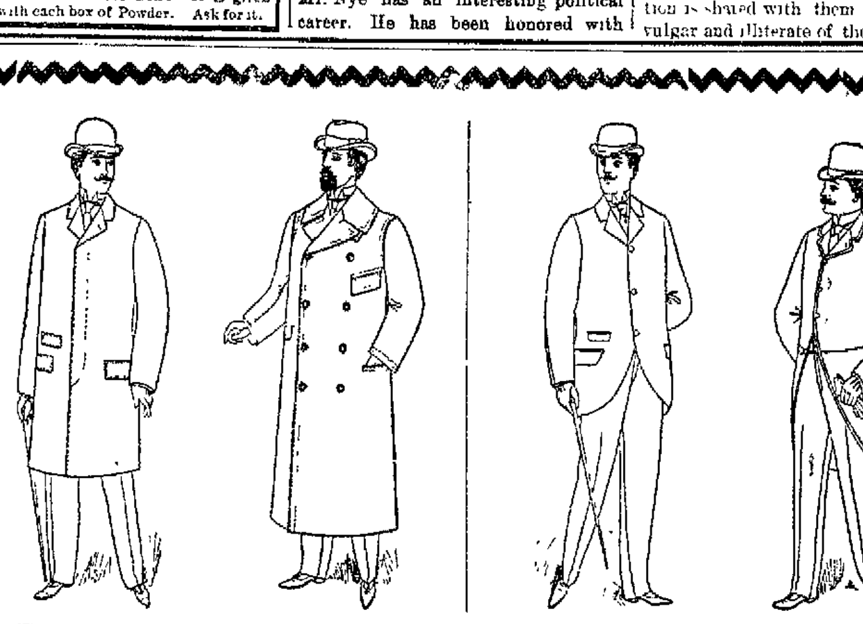
LIEUTENANT GOVERNOR MORTIMER NYE, of Laporte, it is announced, is an avowed candidate for the democratic nomination for governor of this state. Mr. Nye has an interesting political career. He has been honored with prominent municipal positions was a Cleveland elector in 1888 a member of the supreme court commission and a candidate for governor before the convention which honored Claude Matthews with the gubernatorial nomination. Mr. Nye was nominated for lieutenant governor by a decisive vote. He stands high in Masonic circles throughout the state and has a large acquaintance, as well as enthusiastic personal following

PREPARATIONS are making for the farmers' institute season Every county in the state will have an institute under state auspices the coming winter, and many of the counties will hold independent meetings in addition, W. C. Latta, of Lafayette, who has the general management, says it is the desire to conduct the work in such a way as to make it in the highest degree helpful to the farming classes by imparting useful information, by inciting to greater effort and awakening a higher appreciation of the advantages and possibilities of rural life. The institute appointed for Allen county will be held on the 16th and 17th of December.

IN the murder trials of Holmes and Durrant much of the evidence upon which they were convicted was circumstantial evidence. Circumstantial evidence, when perfect in its chain, is the strongest evidence that can be presented in the court of justice. Witnesses testifying to facts which have come under their observation may be false, or their testimony so colored as to do great injustice, but the chain of circumstances necessary to fasten the guilt of murder upon a prisoner must be so complete as to exclude the possibility of mistake. The strength of circumstantial testimony is simply the strength of its weakest link, but when link by link the chain is forged complete in its strength from beginning to end, it cannot mislead an intelligent jury.

The decline in interest in county fairs is owing to the fact that there have been no new attractions of late years. The public got tired of looking at big pumpkins and beets and red and green "samplers" forever. The fickle human mind demands ever something new. For the past year this seemed in a measure to be supplied by hitching a Midway plaisance to the county fair. The boys yelled over it, especially if they fancied they were doing something naughty when they gazed upon it. But now the implement manufacturers have made a declaration of war to the knife against the Midway plaisance. They say it draws people away from looking at their beautiful, bright machinery, and they will enlist the virtue and respectability of the land in opposition to the bad show. Between the thrashing machine and the plaisance, however, we bet on the plaisance every time.

It is a pity that the families of American millionaires, those who have every opportunity to develop intellectual, moral and physical perfection, have, after all, no higher ambition than to astonish the gaping multitude by their display of mere money. Such an ambition is shared with them by the most vulgar and illiterate of the race



FALL and WINTER OVERCOATS and SUITS.

THIS SEASON'S styles we mean. Don't let your Clothing speak of the past, but be up-to date in fashion. Our extremely modest prices will enable you to do this, no matter how limited your purse may be. A warm Overcoat is a necessity.

A man don't look dressed and comfortable at this time of the year without a new Overcoat; neither does he feel so.

Ours are the neatest, dressiest, and best that we ever offered for the money. Shrewd men will look at them and save dollars this season

It seems almost superfluous to say anything about our seasonable Suits when they speak so well for themselves. But if you don't know the changes in Clothing fashions since last Spring, our store is at your service.

No old Suits here.

No room for them.

In all the land, so far as we know, there's nothing to compare in variety and completeness with our Suits this season. The prices have been changed too. Don't cost near so much now for good Clothing as formerly.

No Reason Why Your Home Should Not Have Good Things—Watch This Department Every Tuesday.

HOW DO YOU TREAT YOUR HIRED GIRL?

The Hon. Carroll D Wright makes it known in his statistics that the United States contains 1,000,000 hired girls In view of this fact and of the hired girl's dependence for home happiness upon the Christian courtesy of the family in which she lives, we wish to ask the following questions of those who employ a hired girl.

How many of you say good morning and good night to her? How many of you greet her cordially on her return from an absence? How many of you speak of her in a homelike, family way to a guest when she enters the room, saying, "This is our Eda, who does so much to make our home a pleasant place," or something of the sort?.

How many take special pains to make the work lighter on Sunday, by simplifying the meals and arranging for her to go to those meetings of her church, which are about the only variety she has?

Who can account for the fact that good Christian people will pass a hired girl just as if she was a block of wood, not giving her even so much of a greeting as they would a household dog or cat?

Why should the hired girl be called the servant? To be sure, one who serves does that which is altogether honorable, but the term has fallen into a sort of synonym for servitude; would it not be better, therefore, to use the expression, our helper? A good, strong Saxon word that has uplift in it and no sense of degradation.

How many of them are asked to go to family prayers, and with all their traits and inconsistencies are remembered in the prayer that is duly offered? How many are fitted out with Bibles, if they have none, and are taught to read our language, if of a foreign birth? How many look carefully after the hired girl's room—to see that she has nice springs in her bed, a soft mattress, a rocking chair and every comfort that is found in the other rooms of the home? How many speak to her kindly about an extra good baking of bread or a nice dish in which she may feel a natural pride? We are all glad of recognition, and yet we often forget that those in humbler situations of life are just as glad to be appreciated as we in ours. Noting that, perhaps, the one whose work lies at the base of the health and the wholesomeness of the home is more acceptable than many a woman who is the mistress of the home.

WHOLE WHEAT BREAD

Pour 1 pint of boiling water into 1 pint of milk; when the whole is lukewarm, add one compressed yeast cake dissolved in ½ cup of warm water, add 1 teaspoonful of salt and sufficient whole wheat flour to make a batter that will drop from a spoon. Beat well for 5 minutes, cover and stand in a moderately warm place for three hours Then add gradually whole wheat flour to make a dough. When sufficiently stiff, take it out on the bread board and knead until soft and elastic. It must not be sticky. Now form it into loaves, put each in a greased pan, cover and stand aside for one hour, and bake in a moderate oven one hour if in square loaves, or half hour in a quick oven if in long French loaves. This is the recipe I use in my own home. We, however, bake most in stick pans—each stick is 6 inches in length and 1 in diameter.—S. T. R.

HASH CAKE.

One half cup of butter, 2 cups of sugar, 1 cup of sweet milk, 3 cups of flour, 2 teaspoons baking powder, whites of 5 eggs. Bake in 2 layers in square tins Filling for cake, 1 cup of raisins (chopped) 1 cup of nuts of any kind you wish, not chopped very fine, make a boiled icing of 2 eggs, 2 small cups of sugar; put enough water in sugar to dissolve it, cook until it hardens by dropping in water. Beat this syrup into the beaten whites, then add raisins and nuts, spread thickly between layers and on top; cut in squares for the table.—Mrs. S. K.

HICKORY NUT CUSTARD CAKE.

Cream, 1 pound of sugar, ½ pound of butter, add five eggs beaten separately, 1 cup of sweet milk, 1 pound of flour, 3 teaspoons baking powder; flavor with lemon, bake in jelly pans. For custard, place 1 pint of milk in a tin vessel, set in boiling water, add 1 tablespoon of corn starch dissolved in a little milk, 2 eggs, ½ cup of sugar, 2 cups chopped hickory nut meats well mixed together in boiling milk, stir, put between the layers of the cake while both are warm. This is excellent. --MRS S K.

APPLES AND RICE

This is a very nice dish for children Pare, quarter and core 4 nice large apples, put them into a saucepan with ½ cup of sugar and ½ cup water, cover, cook slowly until tender but not too soft. Wash ½ cup of rice in cold water, drain and cover with boiling water Cook half hour, watching carefully, or until all the water has evaporated. Turn the rice in the center of a flat dish, arrange around the apples and serve warm —Aunt Annie

GINGER COOKIES

One pint of New Orleans molasses, 1½ coffee cups of butter, 2½ coffee cups of sugar, ½ cup hot water, 2 eggs, 1 tablespoonful of ginger, 1 heaping tablespoonful of soda dissolved in the hot water Mix stiff enough for a soft dough. Bake in quick oven. Put all together in a large bowl, put soda in hot water, then stir until molasses foams, then put in the flour. These will keep two months in a crock or tin vessel and are splendid —Mrs. S. K.

GINGER CAKE.

One-half cup sugar, 1 cup N. O molasses, ½ cup butter, 1 teaspoonful each cinnamon, ginger and cloves, 2 teaspoonfulls soda in a cup boiling water, 2½ cups flour, add 2 well beaten eggs the last thing before baking. Can be baked in gem pans, or in layers and spread with icing, or put in fruit and you have a nice, cheap fruit cake —Mrs. S. K.

CELERY SOUP.

Take 4 potatoes, boil and mash fine, 1 celery stock, cut in small pieces and stew until soft, butter size of an egg, salt and pepper, 3 pints water, stir all together and add 1 cup milk—is improved by adding 1 teaspoonful of Worcester sauce and 1 tablespoonful of catsup, but is good without —Mrs H C Hartman, Maple avenue.

APPLE FRITTERS

Pare, core and chop ten good sized apples. Beat 2 eggs without separating, and ½ cup of milk, ½ teaspoonful salt and ⅞ of a cup of flour. Beat until light, add apples and 1 teaspoonful of melted butter; beat, add teaspoonful of baking powder. Mix and fry by dropping spoonfuls in hot fat. Serve with powdered sugar —Good

APPLES ON HALF SHELL.

Cut slices of bread into rounds, butter each and place them in a baking pan Pare and core nice large apples, cut them into slices crosswise one inch in thickness, put one on each slice of bread, dust with granulated sugar and put in a hot oven. Bake 20 minutes, dish, cover with cream and serve — Sallie.

CLAM SOUP

One dozen or one pint of clams, 3 potatoes, 4 hard boiled eggs, 1 pint of milk, ½ pint of clam broth, add water to make a pint, 1 bunch of parsley cut fine, put potatoes in broth and cook When done put in clams cut up fine and cook ten minutes, put milk and eggs in last.—Professional.

FRIED TURNIPS

Pare and cut the new turnips into slices, crosswise, about a half inch thick. Throw them into unsalted water, simmer 20 minutes, drain. Dust with salt and pepper, dip into egg, and then into crumbs, and fry in smoking fat.—Cook.

FRIED APPLES

Remove the cores from large ripe apples, cut them into slices ¼ of an inch thick. Dust them with sugar, stand aside ten minutes. Dip each in eggs, then in cake crumbs and fry in oil. Serve with powdered sugar —H N.

SUET PUDDING.

One cup suet chopped fine, 1 cup sugar, 1 cup sweet milk, 1 cup chopped raisins, 3 cups flour, with 2 teaspoonfuls baking powder sifted in, salt and nutmeg to taste. Boil 1½ hours and serve while hot.—G. P.

SAUCE

One cup sugar, ½ cup butter, 1 egg. 1 teaspoonful cornstarch; beat together and add 1 cup of boiling water, flavor with vanilla —G. P.

TIMES ARE GOOD

When Many Real Estate Transfers Are Being Made.

The activity in the real estate market is one of the best of indications of good times and this shows itself in Fort Wayne by the many transfers of property now being made. The following is the list as taken from the books of County Recorder Geo Fickel, representing only the sales recorded with him since Saturday last:

Levi Crabil and wife sell to B F Harper lot 332 in Hamilton's fourth addition.

R S. Robertson sells to A. D. and Jos. N. Mason the 50 feet west of east 50 feet west of Griffith street, between Superior street and the St. Mary's river.

Louis E Banet and wife sell to Frank L. Markey lots 20 and 21 in Eckert's addition.

J. D. Bond sells lots 169 and 170, in Williams' addition, to Catherine Miller for $5 000

P. A. Randall to J. C. and J. Lynch, lot 6 in McCulloch's addition for $1,600

E W. Cook et al. to the Tri State Building and Loan association, lot 34 in Zollars' addition for $800.

H. M. Williams to Tri State Building and Loan association, lot 31 on East Creighton avenue, for $400

E. P. Williams to Tri-State Building and Loan association, lot 244 in Williams' addition, for $700.

L. F. Curdes to Allen County Loan and Savings association, lot 87 in Zollars and Swayne's addition, for $450.

Deputy sheriffs raided a gang of ramblers in the east yards yesterday and arrested seven of them. Justice Hays sent them to board with the sheriff for fifteen days

Should be Looked Into.

THOROUGH INVESTIGATION REQUESTED.

A BOLD ASSERTION.

Ever since Prof Koch startled the world by promising to cure consumption with the Koch lymph and his complete failure to do so, the people have been looking for some discovery which would prove an absolute, certain cure for that dread disease. Over a quarter of a century ago Dr. R. V Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, put in a claim for a medicine, which he had discovered and used, in his extensive practice, that would *cure* ninety-eight per cent of all cases of consumption when taken in all its early stages. Time has proved that his assertion was based on facts gained from experience. His "Golden Medical Discovery" has cured many thousand people in all parts of the world, and Dr. Pierce invites all interested to send to him for a free book which gives the names, addresses and photographs of many prominent people who have willingly testified to the marvelous curative properties of his "Golden Medical Discovery." He has also written a Book of 160 pages on "Diseases of the Respiratory Organs," which treats of all Throat, Bronchial and Lung diseases, also Asthma and Catarrh, that will be mailed by the World's Dispensary Medical Association of Buffalo, N.Y, on receipt of six cents in stamps, to pay postage.

Consumption, as most everybody knows, is first manifested by feeble vitality, loss of strength, emaciation; then local symptoms soon develop, as *cough*, difficult breathing, or bleeding from lungs, when investigation proves that tubercular deposits have formed in the lungs. It is earnestly advised that the "Discovery" be taken early and the latter stages of the disease can thereby be easily avoided.

To build up *solid flesh and strength* after the grip, pneumonia, ("lung fever"), exhausting fevers, and other prostrating diseases, it has no equal. It does not make *fat* like cod liver oil and its nasty compounds, but, *solid, wholesome flesh.*

HOW NAPOLEON LOST

The True and Real Secret of His Downfall.

Lack of Reinforcement Changed Destinies of Nations.

Battles Lost in Our Own War in Same Way.

Reinforcement of Both Power and Strength.

The Great and Vital Need Always Present.

Napoleon looked in vain for his general to appear when the tide of Waterloo was at its height He did not come and that great Conqueror lost the field; France was checked, the fate of Europe was changed and the tide of human history found a new direction.

So in the long, fierce war of the Rebellion, many a field was lost or won as needed reinforcements came, or failed to come.

So it is in the natural world:—the shower grateful to the parched earth, the sunshine wooing the green shoot, the wind that cools or warms at the right time, all help keep nature fresh and beautiful. In the realm of health the same law prevails. There are parching drouths and destructive floods to be provided and guarded against; and when they come, they have to be robbed, as far as possible, of their effects.

Prevention in all these cases is better than cure.

Save the battle in advance.

Provide the relief before it is needed

It is less expensive and far more beneficial from every view.

Reinforce nature. Help her to keep normal and healthy.

Take care of the blood and nerves, and we shall have no fear of disease

Dr. Greene's Nervura blood and nerve remedy has stood the test of many years for this purpose. It has no rival as a wonderful restorative. It has no equal in the purification of the blood, the strengthening of the nerves and for preventing all the ills which threaten at this season of the year.

Try it and be assured. It is the great reinforcement of strength, power and vigor of nerve, brain and body. It will make you well and strong

Why waste time in trying uncertain and untried remedies, when here is a physician's prescription, a discovery made by the greatest living specialist in curing nervous and chronic diseases, Dr. Greene of 35 West 14th St, New York city. If you take this medicine you can consider yourself under Dr. Greene's direct professional care, and you can consult him or write to him about your case freely and without charge. This is a guarantee that this medicine will cure, possessed by no other medicine in the world.

SUNDAY SCHOOL WORKERS.

An Interesting Meeting Held in Perry Township.

The Perry township Sunday school organization convened at the M. E. church at Huntertown on Friday and Saturday, Nov. 1 and 2.

The first session was called to order at 7 p. m. by B. W. Hart, co organizer, when H. Surfur, township president, took the chair and appointed A. Staley, secretary pro tem.

After singing and devotional exercises, B. W. Hart, in a very interesting way, presented "Sunday School Work in Allen County," after which J. W. Hursh gave an address on "The Ideal Teacher," which showed his earnestness and proficiency in all school work. The convention then adjourned until Saturday at 9 a. m.

The devotional exercises of the next session were led by A. D Craig, after which the subject of "Grading in the Sunday School" was introduced and fully discussed by members of the convention.

Miss Sylvia Warcup then recited a selection. E. A. K. Hackett gave an "Address to Workers." Reports of schools were then called for, and five of the seven in the township responded, all reporting good work done. A nominating committee was then appointed by the president, when the convention adjourned until 1 30 p. m.

The devotional exercises of the last session were led by Rev. Lewellen, after which B W. Hart gave an address on "Ways of Working," introducing many new thoughts.

A recitation by Master Warner was then listened to, and a duet by the Warcup sisters. Mr. Craig then gave an address on "Should Church Members and Parents Attend the Sunday School?"

The report of the nominating committee was then called for, which was as follows: Vice president, J. D Gloyd, secretary, Miss Lavon Chapman; treasurer, John Warner, musical director, Miss Carrie Warcup. It was moved and carried that the report be adopted.

Pledges were then taken for support of Sunday school work in Allen county, and after singing by the M. E choir, which had rendered music throughout the entire session, the convention adjourned sine die.

LAVON CHAPMAN, Secretary.

ROUTINE BUSINESS

Transacted by the Board of Public Works at Yesterday's Meeting.

The board of public works was in session yesterday afternoon. Vouchers for the October expenses, were signed. The assessment roll for an alley between High and North streets was approved, also the assessment roll for the opening of Jane street. The assessment roll for the vacation of an alley between Cedar and McCulloch streets from Summit street to Maumee avenue was laid on the table for further investigation.

Clerk You was instructed to open correspondence with a number of other cities for the purpose of ascertaining the terms upon which street railways are operated elsewhere. The board does this in order that it may arrive at a solution of the street railway problem in this city.

IN TEXAS

Occurred Two Bad Railway Wrecks Yesterday.

Engineer Instantly Killed—Fireman Scalded and Passengers Badly Shaken Up.

DALLAS, Tex, Nov 5—The southbound train on the Gulf, Colorado and Santa Fe, and Missouri, Kansas and Texas railroads both tried to make the crossing near the Packery at the same time at about 6 50 o'clock yesterday morning. The "Katy" engine got across first, and the engineer seeing that the Santa Fe engine was going to strike his train, very skillfully stopped the baggage car over the crossing to receive it. The "Katy" baggage car was smashed up and the smoker attached derailed and turned half over The engine and the coaches remained on the track. The engine of the Santa Fe was derailed. Several members of the latter's crew and a number of passengers received nervous shocks and were considerably shaken up, but nobody was injured. Even the baggage agent on the "Katy" car, that was knocked into kindling wood, escaped uninjured.

The regular northbound passenger train on the Missouri, Kansas and Texas was wrecked yesterday about four miles from Waxahachie, between that place and Steritt, which resulted in the engineer being instantly killed, the fireman scalded, and a number of passengers more or less injured, none seriously

MASONIC SIGNS DON'T GO.

Remarkable Case of Contempt Alleged by a Hoosier Jurist.

ANDERSON, Ind, Nov. 5—William H Freeman was placed under arrest yesterday morning in the superior court under singular circumstances. He had a brother on trial. Judge Diven, who was on the bench, asserts that Freeman took his place beside the brother, and knowing that he (Diven) was a Mason, began to give him the Masonic signs, presumably to influence the court He was ordered placed under arrest and he will come up today for a hearing He is the principal stockholder in and manager of the hoop works, at Hemlock, Howard county. He denies having given any signs and will fight the case a thing that may result in making public the Masonic signs.

Couldn't Stand Upright.

June 11th, 1894.
THE DR. J. H. MCLEAN MEDICINE CO.,
St. Louis, Mo.

GENTLEMEN: For about ten years I suffered with a pain in my back which I thought was caused by a strain. Sometimes it got so bad I could not stand upright or ride in my buggy. I read in your almanac of symptoms that I recognized as my own, which led me to the conclusion that my trouble was disease in the kidneys. I immediately began using

DR. J. H. McLEAN'S LIVER AND KIDNEY BALM.

It proved to be the right medicine and reached the spot. I soon lost all pain and have better health than ever before. It is more than a year now since I quit using it and have not had a pain or sick day in all that time. It is certainly a wonderful medicine for the kidneys.

Economy In Fuel.

The Eureka Fuel Economizer is a scientific preparation which augments the intensity of coal and wood heat in the proportion of 33 per cent.

If the direction printed on each package is carefully observed, the Eureka will give to any ordinary or middling coal the same value as that of superior quality.

The Eureka prevents the shoots, the cinders and the formation of smoke, which may spoil, in an apartment, so many valuable articles, such as curtains, paintings, etc.

The Eureka burns any kind of gas which might destroy the breathable air.

The Eureka Economizer produces a heat more soft and more concentrated.

We guarantee that our preparation produces no injurious effect on the health, and does not affect in any way stoves, ranges, grates, etc.

To try it is to be convinced that our product is a triumph of success.

On receipt of 25c we will mail you a full size sample package, bearing very explicit direction charges prepaid.

ANOTHER LINK

In the Evidence Against the Kessler Train Robbers.

Brown Points Out the Spot Where the Papers Were Buried—Local Affairs

Another link in the chain of evidence that one of the Kessler train robbers has been captured was established yesterday afternoon by the digging up of papers that were stolen at the time of the robbery. James Brown, who was arrested for the Chicago and West Michigan hold-up a few months ago and was brought to Albion last Saturday, gave conclusive evidence that he is one of the gang. He went with Sheriff Simon and Prosecutor Glatte to a spot on the farm of Lum Cain, about three miles east of the scene of the hold-up, and one mile north of the railroad, where, near a spring, he pointed to a log about two rods distant where he said the papers would be found. About a foot below the surface at the spot indicated the package was found. They were express papers and some money orders. The canvas sack had rotted away, and the outer edges of the papers were decayed, but many parts of them were plainly legible. Brown says it was at that place where he and the Smalleys stopped shortly after committing the robbery. At daylight they counted the money, about $16,000, and each took $5,000. Brown says Abe Smalley is in Montana. He is a thorough desperado, and his rule has always been never to be taken.

LEFT THE ARMY TO BECOME A BRAKEMAN.

Lieutenant Charles Hines, who left the United States army to enter the railway service, recently visited Washington and the Evening Star, of that city, devotes a column to a sketch of the young man's career. The paper states that the lieutenant began as a freight brakeman on the Big Four a short time ago and has already arisen to the position of yardmaster at Anderson, Ind. He believes that the railroad business will increase in importance with the growth of the country, and that one of the most marked advances in this line will be the development of great terminals. If this be true the yardmaster becomes a more and more necessary and important functionary in the great railroad system.

ELECTRICITY A COMMODITY.

Electric power is to become a commodity and be retailed in package and quantity to suit purchaser, the same as butter or sugar. A Chicago firm has organized for the purpose, with a capital stock of $10,000,000. From Niagara Falls the electric fluid is to be run into storage jars, corked up and shipped to the consumers. This vast force is estimated at $80,000 horse power—at least that is the alleged amount of power harnessed by the company which has been working at the task for some years. One of the patrons of the Chicago firm will be the North and West Side street railways.

FRICK'S BIG PURCHASE.

The H. C. Frick Coke company has purchased the property of the McClure Coke company for $4,000,000, thus virtually consolidating the coke interests of Pennsylvania and Ohio. It is believed that the result of the deal will be a rapid advance in the price of coke.

VOTED AID TO A RAILROAD.

At the election held Saturday, to determine whether $22,000 should be appropriated by Salamonie township, Huntington county, in aid of the proposed Indiana Central railroad, extending from Union City to Huntington, 618 votes were cast—328 for and 290 against the proposition. Considerable feeling was worked up among the voters, many of whom were bitterly opposed to subsidizing corporations.

BRIEF MENTION.

P. Walsh, painter at the east car shops, is sick.

J. B. Ryan and A. A. Greenich, Pittsburg firemen, are sick and off duty.

The anti-pass agreement of the western lines is to be continued another year.

Machinist Frank Frary, of the Wabash shops, has returned from his western trip.

L. Linker has been transferred from the Lafayette street works to the east car shops.

Herman Arens went to Fon Du Lac yesterday to set up a gas tank for the Kerr Murray works.

Conductor H. W. Billings and Brakeman Joe Hamilton, of the Nickel Plate, are off duty for a rest.

M. E. Bawn, Nickel Plate brakeman, has returned from Fort Seneca, Ohio, where he visited friends a few days.

Master Mechanic W. W. Atterbury went to Chicago this morning on business for the Pennsylvania company.

Inspector F Lauer, of the Pittsburg, has gone to Valparaiso to relieve F. Shurick, whose mother died yesterday.

Thomas Sinclair, clerk in the Pittsburg paint shop, has moved from Butler street to 333 South Harrison street.

The railways of Pennsylvania give employment to 176,228 persons, and disburse annually to employes $99,183,991 55.

Ira Shives, who operates a circular saw in the Bass blacksmith shop, is off duty to attend the funeral of his grandmother.

Oscar B Judy, assistant foreman of the Pittsburg blacksmith shop, was at Pullman yesterday on business for the company.

C. D. W. Hilker has a broken bone in his right hand and is absent from his post of duty in the Pittsburg lumber yards.

Col. Oran Perry, on November 1 commenced his twenty-first year as general agent of the Pennsylvania lines at Indianapolis.

Fireman F. V. McGinnis, of the Nickel Plate, has gone to Youngstown, Ohio, in response to a telegram announcing the death of his father.

Conductor Hilbish, who has charge of a Nickel Plate local freight between Leipsic and Bellevue, has taken a lay off and Conductor John McVey has his run.

Joe Harris came home yesterday from Dayton, Ohio, where he inspected some cars the Barney & Smith company built for the Pennsylvania company.

Frank Cairnes is again detained from his duties in the Pittsburg machine shop, his wife having suffered a relapse. Her illness has developed into typhoid malaria.

Under the improved methods of baling cotton, 50,000 pounds can be loaded in a car in lieu of 17,000 pounds, which is a great item when cars are as scarce as at present.

August Grenzebach and H. C. Meyers, of the Pittsburg blacksmith shop, are off duty, the former on account of sickness and the latter to attend a funeral.

The Minnie Maddern troup left this morning for Jamestown, N. Y., going by way of the Grand Rapids to Decatur, thence by the Chicago and Erie to their destination.

B. H. Martin went to Knox yesterday to relieve A. O. Spayd, of the local freight running between Knox and Stony Island. Spayd will take a through freight run

George. H Seybold and Julius Laboub are two new names on the Nickel Plate's pay roll. The owners of the cognomens commenced work yesterday as roundhouse laborers.

Wm H. Bendure has resigned a position in the east car shops and returned to his old position in the Fort Wayne Furniture works, which he filled for seven or eight years.

The sick list at the Kerr Murray works yesterday contained the names of Otto Snyder, Conrad Seidel, August Tremmel, Charles Braden and H Engbers. None are seriously ill.

After a week's illness, J. H. Coffee has returned to his duties in the Wabash shops.

Clark Orr, formerly of Orr Bros, the dealers in electrical supplies, has returned to his old position in the electric works.

Henry Mollett and Henry Swartz patternmakers, have taken employment at the electric works. Business at the works is booming.

F. S. Hunting, chief of the engineering department of the electric works, has returned from a business trip in the south and west.

John Woodward is again an employe of the electric works and is engaged in Foreman P. Bosworth's room. For some months Mr. Woodward was in Elkhart.

The late heavy rains in Pennsylvania have enabled the Pennsylvania Railroad company to take off its water trains, which have been running several weeks to supply locomotives with water.

G. H. Wilcox, who resigned as painter in the Pittsburg shops with the intention of going to Portland, Ore, did not get any farther west than Chicago He came back here Saturday and yesterday took a situation in the Bowser Oil Tank works.

Mrs. Adolph Wilde, of Chicago, is visiting friends on Smith street and looking for a house with the intention of moving down here. Her son is a fireman on the Pittsburg road and this city is his headquarters. He is urging his mother to come here to live.

John Niebel is one of the prosperous and hard working machinists in the Pittsburg shops. One of the evidences of his thrift is the purchase of a lot on East Williams street, upon which he is preparing to erect a seven room house, which, when completed, he will occupy.

It is stated that William Hogdon, who recently left the Baltimore and Ohio lines to become general freight agent of the Cleveland, Akron and Columbus, is to be appointed general freight agent of all lines owned by the Brice syndicate, under H. C. Parker, traffic manager.

Samuel Higgins, superintendent of motive power of the Lehigh Valley road, has commenced the building of a locomotive which he thinks is to be a record breaker. Several novelties are introduced in its construction. The engine will weigh 128 000 pounds, weight on drivers in working order, 90,000 pounds.

There was a happy gathering of twenty five or thirty jolly people at the home of Mr. and Mrs. H. W. G. Heine, 141 Wallace street, last evening, the occasion being the celebration of the host's birthday. Music, dancing, cards and general social chat served to pass the early hours and at 11 o'clock lunch was served. Mr. Heine is a boilermaker in the Pittsburg shops.

Yesterday's shipments from the electric works included a 1,000 light alternating dynamo to Amesburg 1 500 light dynamo to Battle Creek, Mich; an 125 light arc machine to Providence, R. I., and a 3 000 light triphase alternating current machine to Utah. The latter dynamo is an immense affair, weighing over fifteen tons.

THUMB BADLY INJURED

Mr. VanNast, an employe of the Olds works, bicycle rim department had the misfortune to run a splinter in one of his thumbs to the depth of an inch and a quarter. The piece of wood was an eighth of an inch thick and it made a bad wound the full length of the thumb. Dr. L. T Sturgis attended the unfortunate man.

MERCHANDISE BURNED.

A car in the eastbound local freight train, on the Wabash, caught fire at Gaar Creek station, near New Haven, this morning and was completely destroyed, together with its load of merchandise. The freight train stood on a siding, giving the main track to No 45, the westbound passenger train, but the heat of the burning car was so intense that the passenger conductor was afraid to run his train by lest it, too, caught fire. The train was, therefore, a half hour late in reaching this city. The loss to the railroad company will not be known until the value of the merchandise is learned.

MAN AND WOMAN INJURED.

Lake Shore trainmen and passengers on the train from the north, which reaches this city at 3.55 o'clock, yesterday witnessed a bad runaway at Stoners, a small station twelve miles from this city. The victims to the accident were an old farmer and his wife, whose name the trainmen could not learn Their horse took fright at the train and ran away, throwing the old people out and wrecking the vehicle. When the train pulled out the poor old couple were still lying in the ditch as still as corpses and their overturned buggy laid partially over them. They were evidently, badly injured, possibly killed.

Persian and ribbed velvet ribbons are among the novelties used for dress trimmings.

Wool braid with a corded edge is used in place of velveteen for the bottom of dresses.

"Chiffon brilliant" is a new substitute for chiffon. It comes in all colors and is very glossy.

The new capes for winter are made of velvet, not so full as they were formerly, and cut long enough to extend well over the hips, while additional warmth is given by a large fur collar.

Black satin petticoats, warmly lined with flannel and gored somewhat after the style of an umbrella, so that they button on to the lower edge of the corset, are indispensable additions to a stout woman's outfit.

Galloons, in many widths and varying prices, are used for trimming, and braiding on cloth gowns for morning wear is in vogue again Basques and vests are braided all over in a pattern or with a simple coil on the edge.

The latest evening dresses are literal copies of the Marie Antoinette gown, with very full skirts gathered on to a low cut waist pointed in front and round in the back. The sleeves are two short puffs hanging like ruffles from the shoulder, and the hip pads are not omitted.—New York Sun.

ELECTIONS TODAY!

Fine Weather in Most of the States

Brings Out an Early and a Big Vote.

The Battle of Ballots as It is Being Waged—We Will Give the Result Tomorrow.

LOUISVILLE, Ky., Nov. 5.—The eventful day in the state's political history opened with fair and cool weather. In this city there is a voting precinct for each 300 of the 39,000 registered voters, and at all of these booths from fifty to a hundred men were in line long before the polls opened. In this city the official ballot for state and municipal officers contains 225 names, beginning with four candidates for each of the state officers to be chosen. The vote, except for school trustees, is secret. For the offices last named, widows, having children of school age, are allowed to vote, but so far as known none of the women have taken advantage of this right. The polls close at 4 o'clock and it will take until nearly morning to count the vote of a precinct. The saloons are closed and will remain in that condition until 12 o'clock Wednesday morning.

FRANKFORT, Ky., Nov. 5.—The morning opened foggy, but the sun came out at 10 o'clock. White and colored voters were allowed to vote alternately. Big vote being polled.

LEXINGTON, Ky., Nov. 5.—A light vote will be polled as length of ballot makes voting slow. Scores of voters will doubtless be unable to vote. Republicans hopeful, democrats concede nothing.

JACKSON, Miss., Nov. 5.—The weather here and throughout the state is warm and a heavy vote will be polled. The contest is too one-sided to cause much interest.

CINCINNATI, Ohio, Nov. 5.—The weather this morning is delightfully pleasant, only a slight haze obstructing the brilliancy of the sun's rays to a very limited extent. The air is balmy and everything is conducive to comfort for the early voters. These flocked in unusual numbers to the polls both in the city and country. Reports from voting places at 8 o'clock both in the city and country showed an unusually large vote at that hour. In several places the vote polled at that hour was greater than at any previous election at the same hour. Unusual interest is shown in the election and appearances indicate that an unusually large per cent. of the registered voters, which is greater than ever before, will be cast.

CLEVELAND, Ohio, Nov. 5.—Election day in this city dawned clear and pleasant. The voting during the early hours of the morning was comparatively light. This had been expected, however, as the registration was far below that of last year. It was evident that much scratching was being done on the county ticket by the republicans.

COLUMBUS, Ohio, Nov. 5.—The weather opened good. Rain is predicted for the afternoon. Local interest in the state ticket and in the respective candidates for the United States senate, Brice and Foraker, one of whom is to be elected by the next legislature, has not been greater for many years.

HAMILTON, Ohio, Nov. 5.—Weather fine; very heavy early vote in city and county. Prospects for full vote. Campbell visited different precincts this morning.

DAYTON, Ohio, Nov. 5.—The weather is bright and bracing. Every prospect of a large vote, judging by the increased registration and the attendance at the polls. There is an exciting struggle over the county ticket and for representatives.

MASSILLON, Ohio, Nov. 5.—The day is fine and a heavy vote is being polled. Coxey is likely to secure a handsome vote.

AKRON, Ohio, Nov. 5.—This is an ideal autumn day and workers of both parties are out in force. The registration was unusually heavy but the voting up to 10:30 was rather light.

COLUMBUS, Ohio, Nov. 5.—Reports received at the state headquarters of the republicans and democrats up to noon indicate that there has been a larger vote polled during the forenoon than was ever known up to that hour. Both parties are confident now that they are getting out their full vote.

The reports generally state that the voters do not remain long in the booths and that party lines are being closely drawn with less scratching than expected. The republicans regard the fine weather which prevails over the state as well as the early heavy voting as in their favor and are claiming a large plurality on the state ticket as well as a majority in both branches of the legislature. The democrats claim that the large republican pluralities of the past two years were due to the democrats not voting and that they will get out their full vote today and at least reduce the republican plurality to its normal size.

Chairman Anderson, of the democratic state committee is not here today but others at his committee rooms claim that the result will be close on the state ticket and they are assured of a full democratic vote.

Chairman Anderson, of the democratic state committee, returned from Greenville at noon. He says Campbell will carry the state outside of Cincinnati, from the reports received today, but he has no indications from Cincinnati. At republican state headquarters they still claim a large plurality outside of Cincinnati, and that the latter will go largely republican.

BALTIMORE, Md., Nov. 5.—The heaviest vote ever polled in Maryland is being cast amid scenes of almost unparalleled excitement, accompanied by occasional acts of lawlessness and disorder. The day is spring like and balmy. Both sides appear to have out their full strength and much bitterness is manifested among the watchers for both parties.

The first shooting affray of the day took place at the first precinct of the Ninth ward, before the polls opened, when John Smith, a democratic watcher, was shot in the left breast and slightly wounded by Horace E. Van Tassell, a republican. The latter was arrested.

Two hours later, in the same precinct, Chas. G. Baldwin, one of the watchers for the reform league, was severely scratched in the right eye in a fight which occurred in the attempt to arrest a reporter. Several arrests were made.

The managers of the "Evening News" predict that Baltimore city will give a majority of 10,000 votes for the republican ticket. The indications are that Mr. Hurst is more than holding his own in the counties outside of Baltimore and that whatever majority Mr. Townsend has must come from the municipality. This is claimed by the friends of Mr. Gorman, as an indication that the attack upon him has not been effective and the increased republican vote in Baltimore is the result of the failure of I. Freeman Rasin to hold his own. John Banks, chairman of the Cecil county democratic committee, telegraphed to the Associated Press that Cecil county will give Mr. Hurst 250 majority. This is more than double previous estimates.

DETROIT, Mich., Nov. 5.—The city election, like the campaign, is a very quiet affair. The early morning vote was light but towards noon much activity was shown in meeting the people at the polls and it now looks as though a heavy vote will be cast. The election of Mayor Pingree for a fourth term, together with the entire republican county ticket has been generally conceded, the only question being as to the size of the majority. The weather is brilliant and warm.

PITTSBURG, Pa., Nov. 5.—Very little interest was manifested in the election here today. There are no close contests and it is only a question of the republican majority. The weather was clear and mild. Up to 11 o'clock a very light vote had been cast.

PHILADELPHIA, Pa., Nov. 5.—Notwithstanding the fact that the weather is all that could be desired reports from all over the state indicate that a light vote is being polled and but little interest is being manifested in the election. The polls opened at 7 a. m. and close at 7 p. m.

OTTUMWA, Iowa, Nov. 5.—C. A. Walsh, secretary of the state democratic central committee, interviewed while home to vote, practically conceded the election of Drake today. He said: "If he has over 40,000 plurality I will be fooled, but I think he will have something under, but near that figure. If it had not been for the Marshalltown convention adopting gold standard Babb would have been elected."

OMAHA, Neb., Nov. 5.—Election day dawned warm but cloudy. The crowd had gathered by the time the polls opened and considerable interest was manifested from the first. The attendance increases as the day advances. The indications are for the full registration being cast—17,800 votes. Both sides are watching narrowly.

OMAHA, Neb., Nov. 5.—Throughout the state election day opened murky and as warm as a July morning with the exception of the extreme western tier of counties, where a light snow and rain is falling. This condition insures a fair vote nearly all over Nebraska. In the larger cities where registration is required, the list is very heavy, representing the entire strength of the various parties, but this is the result of local issues and will not apply in the rural districts, where state candidates are relied on alone to get out the votes. In the country districts the vote will not be at all heavy owing to the absence of interest.

NEW YORK, Nov. 5.—Should there be a light vote cast in New York today it will not be on account of the weather, which could hardly be better than it is, but may be because of the unfamiliarity of the voters with the blanket ballot system. To overcome this, each party has erected stations near every polling place where voters are taught how to fold the papers, and, in particular, exhorted to risk nothing by trying to "scratch" the ticket.

The polls opened at 6 o'clock and up to noon there had been no disturbance anywhere. Police Commissioner Roosevelt and Acting Chief Conlin had stated that there was less colonization this year than ever before, but no chances were taken.

William C. Whitney voted at 7:30 o'clock. He was the fourteenth to cast his ballot in his precinct. Mr. Whitney took but little time in making his selections on the ticket. Mayor Strong voted at the same booth half an hour later, the preparation of his ballot occupying about two minutes. Police Commissioner Theodore Roosevelt made brief work of marking and folding his voting paper at 7:39 a. m., and appeared in a particularly cheerful mood. So was ex-Police Commissioner Sheehan, who also voted early, supplementing the act with the announcement to his friends about the place that "this is going to be a landslide."

There has been some complaint that the police were not given relief from duty for a time sufficient to permit of their voting. An application for a mandamus upon the police commissioner to allow the officers the necessary time was made by a lawyer named Glumfield, acting on his own responsibility before Judge Beekman in the supreme court, but it was refused. Commissioner Roosevelt said to the court:

"We have done all in our power consistently with the preservation of the public welfare to permit these men to vote and a larger number of the force have voted today than at any previous election. We have reports from Chief Inspector Collin showing that at 1:30 o'clock 40 per cent. of the force had voted."

BROOKLYN, N. Y., Nov. 5.—Before 10 o'clock this morning nearly half of the voters in each election district have cast their ballots. A heavy vote is expected despite the registration being 10,000 short of last year.

CHICAGO, Nov. 5.—The election in this city today was for two judges of the superior court, nine trustees of the sanitary district and for or against what is known as the "Torrens land title system." There were four tickets in the field—republican, democrat, people's and socialistic labor. Comparatively little attention was paid to the two latter and republican and democratic leaders spoke of a woeful lack of interest on the part of voters.

The weather was all that could be desired. The police orders closing all saloons during voting hours and prohibiting electioneering withing 100 feet of the poling places were rigidly enforced for the first time and this contributed to the quiet of the day. Up to 11 a. m. not one-third of the registered vote had been cast, and the indications are for the lightest total vote in years.

Besides an apparent general lack of interest, the fact that more "suspect" notices were sent into what are commonly called the lodging house districts than ever before, aided in holding down the vote. So far there has been little scratching.

RICHMOND, Va., Nov. 5.—The democratic ticket will win easily throughout Virginia. A light vote is being cast and there is little enthusiasm shown. The cloudy and threatening weather has kept many of the voters home. Specials from Williamsburg say that everything is going to be democratic.

BOSTON, Nov. 5.—The election today is proceeding quietly both in this city and throughout the state. The weather is superb but up to noon the vote had been unusually light. Not much is heard of the A. P. A. vote, and the prediction is made that the scratching will not be greater that it has been in the past.

KANSAS CITY, Mo., Nov. 5.—Returns up to noon indicate but little of what the result will be in Kansas. As a rule a large vote will be polled.

OMAHA, Nov. 5.—The rain and snow belt of the early morning has extended farther east and interfered somewhat with the attendance at the polls. In some of the larger cities some spirited contests are being waged between the two wings of the democratic party, and each side is doing its best to make a showing.

DES MOINES, Iowa, Nov. 5.—The weather seems to be good all over the state, and everything fine for election day. The general feeling here in both parties is that the vote will be lighter than at the last gubernatorial contest. The republican plurality will be about the same in proportion.

UPPER SANDUSKY, Ohio, Nov. 5.—A beautiful day, coupled with the hardest hustling ever witnessed here, is causing a heavy vote. The streets are alive with wire-pullers, but things are quiet. The republicans feel jubilantly hopeful, as the unusual amount of scratching indicates success for a part of the ticket. Some are enthusiastic enough to claim the entire county. The populists are pulling strongly from the democrats, and other influences are at work that almost insure the election of the republican candidates for representative, sheriff and commissioners. The democrats, however, claim a large majority for Campbell and the entire ticket.

SALT LAKE, Nov. 5.—After 10 a. m. voting progressed more rapidly, and at the present rate a large vote will be polled. Many tickets are being scratched, and this will probably show against the republicans as the city is a republican stronghold. Nothing definite has been heard from country districts. A large vote is being polled in Ogden.

CHICAGO, Nov. 5.—2:30 P. M.—It looks at this hour as though the republicans will succeed in electing all their candidates, with the exception of one or two of the drainage trustees.

A change of votes sufficient may be made between now and the hour for closing the polls to change the present outlook, but it is not expected.

The strict enforcement by the police of the regulations has resulted in producing one of the quietest election days ever known here. Not a bit of trouble has been reported to the police.

To Prevent Extinction.

LONDON, Nov. 5.—The secretary of state for the colonies, Mr. Chamberlain, has received a petition from the planters of British Guina pointing out that they are suffering from the serious decline in the sugar industry and urging the necessity for prompt government aid to prevent the extinction of this industry in British Guiana.

THE GREAT NORTHERN

Railway Strike Not Making Much Headway.

Goodwin Denounced—Few Men Out at Spokane—Attempt to Fire a Railway Bridge.

KALISPELL, Mont., Nov. 5.—Roy Goodwin, director of the A. R. U., who has been just released from jail, where he was sentenced by the United States court with E. V. Debs and others, called a meeting of that order here last night. Only ten employes of the Kalispel division were present, the balance being men discharged from the service. It was voted to strike and Goodwin called the strike to take effect at 11 p. m. At the appointed hour the train crews responded promptly and when it was announced that Goodwin had called a strike they took a strong stand in favor of the company and expressed a determination to defeat the strike. Goodwin was denounced as an agitator, unworthy of notice. His anarchistic speech at Spokane a few days ago lost him any supremacy he may have enjoyed among the railroad men.

SPOKANE, Wash., Nov. 5.—The strike on the Great Northern is only partial at this place. The east bound passenger train went through on time and the officials claim that all trains are moving regularly. At the car shops at Hillyard, a part of the employes went out. The strikers claim that about sixty have gone out, but the master mechanic says the number is only eighteen, and of these six have returned.

SAN FRANCISCO, Nov. 5.—The threatened strike of the employes of the Great Northern railroad has caused no little comment among local railroad men and especially the members of the A. R. U. The dissatisfaction of the Hill men has a peculiar significance in this city, Oakland and Sacramento, inasmuch as it is generally admitted that on the success or failure of a strike on the Great Northern railway system at this time hinges the future of all organized railway labor west of the Missouri river. Incidentally it may be said that on the Southern Pacific railway system there has been unusual activity of late on the part of labor unions.

KALISPELL, Mont., Nov. 5.—An attempt was made to wreck a Great Northern west bound passenger train near Columbia Falls. A torch was applied to a bridge just west of the big cut this side of Columbia Falls and the fire was just gaining headway as the train dashed onto the bridge. The engineer applied the air brakes and the train was stopped on the bridge. A reward of $500 have been offered by the Great Northern and $500 by Governor Rickards for the apprehension of the persons who attempted to wreck the train.

CLEVELAND, O., Nov. 5.—First Assistant Grand Chief T. S. Ingraham, of the Brotherhood of Locomotive Engineers, who represents Chief Arthur during the latter's absence in Europe, said today that so far as was known at headquarters, the engineers of the Great Northern had no grievances whatever. He believed it highly improbable that they would in any way become involved or take part in any strike on the road.

MINNEAPOLIS, Nov. 5.—There are some threatening aspects in the Great Northern strike situation, which lead to a belief that the strike may become general among the A. R. U. men on this system by tomorrow. The discharge of Engineer William Best, the hero of the Hinckley fire, is very distasteful to the men. Best was president of the A. R. U. at the time of the peril and at a meeting of the grievance committee it is charged that he was discharged for those reasons.

Don't Mention Them.

Prominently posted in the office of a certain nervous and somewhat eccentric inventor is the following notice: "I have my own troubles. Don't mention yours."

It is the nervous inventor's way of defending himself from the legions that bear down upon him to pour their sorrows into his ears till they drive him almost crazy. He is not so far wrong after all. Nine-tenths of the so called sorrows and afflictions of the race would be much better suppressed and not told to anybody, not admitted even to ourselves.

We say we must go to our friends for sympathy. Then we pour into their ears a tale of woe. We make the most of every little physical ailment and roll it as a sweet morsel under the tongue. We make the most of every petty annoyance that is not worth giving a second thought to. Every little loss, every little slight is treasured till it really becomes something, although it was not anything at all to speak of in the first place.

We are what we think we are. By this morbid, diseased vanity and craving for "sympathy," as we call it, we make ourselves a nuisance and life a burden to our friends, until they would as soon see a coffin come into their homes. If we don't think about our troubles and don't talk about them, they die out and become nothing. In any case, it is only morbid vanity and overweening selfishness that makes us distress our friends with our woes. Stop it. Take sunshine to your friends instead of black gloom. "They have their own troubles."

It looks as if some very rich gold mines were about to be developed up along the Alaskan line. Hurry up that boundary survey.

International politics promises to be lively in this country, with the Cuban, Venezuelan and Hawaiian questions all pressing at once.

HINSHAW MURDER CASE.

The Court Overrules the Motion for a New Trial

And Sentences the Prisoner to the Penitentiary for Life—Is Taken to the Prison South.

DANVILLE, Ind., Nov. 5.—Judge Hadley has overruled the motion for a new trial in the Hinshaw murder case and sentenced the prisoner to the penitentiary. The attorneys will appeal the case to the supreme court. Hinshaw was taken to the prison south today.

DOUBLE MURDER.

Man and Wife Found With Their Skulls Crushed.

Robbery the Motive of the Crime—The House Ransacked—Was a Baltimorean.

BALTIMORE, Md., Nov. 5.—Captain Frederick Lang and his wife were murdered at their home on Franklin avenue, Gardenville, last night. Their skulls were crushed while they lay in bed and the house was ransacked. It is supposed that robbery was the incentive of the double murder. Captain Lang was a Baltimorean. He was about fifty years old and wealthy. He owned considerable property aside from a number of vessels.

CANAL COMMISSIONERS CHOSEN

President Cleveland Appoints Angell, Russell and Cooley.

WASHINGTON, Nov. 5.—The president has made the following appointments: James B. Angel, of Michigan; John E. Russell, of Massachusetts, and Lyman E. Cooley of Illinois, to be commissioners to make inquiry and report upon the feasibility of a deep water canal between the great lakes and the Atlantic ocean, under the act approved March 2, last.

The deep water commissioners are require to meet and confer with a similar commission yet to be appointed by Great Britain or the Dominion of Canada, with reference to the creation of a deep water connection between the lakes and the Atlantic, and if any part of this channel shall fall within the lines of Canada they are to determine what treaty stipulations are necessary to insure the free use of the channel to citizens of the United States on equal terms with Canadians.

No salary is attached to the position of commissioner, although expenses are provided for. The commission as constituted ranks high in the estimation of engineer officers. Mr. Angell, who negotiated the Chinese treaty, is regarded as peculiarly qualified to treat the diplomatic question involved; Mr. Cooley is by profession able to pass upon the engineering features of the work, and ex-Representative Russell, of Massachusetts, is believed able to deal with the enterprise as a commercial project.

CLOSED ITS DOORS.

Failure of the Bellingham Bay Bank, in Washington.

NEW WHATCOM, Wash., Nov. 5.—The Bellingham Bay National bank has closed its doors by order of the directors, being unable to meet the county treasurer's demand for the county's deposit. No statement of assets and liabilities has yet been given out. The cashier reports the liabilities approximately at $105,000, of which $77,000 is due depositors. The assets are $167,000. President Morgan says the suspension is due to a steady withdrawal of deposits and a general feeling of distrust since the recent Tacoma bank troubles. The suspension of the Bellingham Bay National bank precipitated a run on the Bennett National bank, which continued until the close of banking hours. The directors held a meeting and adopted a resolution not to open this morning and directing the president to wire the comptroller of the currency to place the bank in the hands of the examiner. The directors say that within thirty days sufficient assets can be realized on to settle with all creditors.

INCENDIARISM HIDES MURDER.

Charred Corpse Found in the Ruins of a Barn Near Shelbyville.

SHELBYVILLE, Ind., Nov. 4.—A mysterious fire occurred early this morning two miles from this city on the farm of Frank Love, in which a large barn was destroyed. When the flames subsided the charred remains of a man of middle age and average height were found in the ruins. It is thought the man was murdered, taken to the barn and the barn fired to conceal the crime. Fresh buggy tracks were found going to and from the barn.

Looking for a Murderer.

NEW WHATCOM, Wash., Nov. 5.—Fred J. Spiesman has been charged by the coroner's jury with the murder of his wife, and the police are now in search of him. Spiesman's house burned last night, and among the ruins was found the body of his wife. An investigation showed that she had been murdered and the house set on fire to conceal the crime.

Sugar Bounty.

NEW ORLEANS, Nov. 5.—The sugar planters, through Col. J. D. Hill and other attorneys, filed two sugar bounty claims suits in the United States circuit court, under the agreement with the Washington authorities, who will advance speedy trial and appeal to the supreme court.

Annulled a Marriage.

SAN FRANCISCO, Nov. 5.—Judge Troutt has annulled the marriage of C. W. Saunders and Mrs. Sadie Saunders, of East Boston, Mass., on the ground that Saunder was a minor when the ceremony was performed. Saunders, who is a son of Oliver H. Saunders, of Boston, testified that he married the woman, from whom he has been divorced, against his will, and has not seen her since.

DR. SMITH.

The Brave African Explorer Heard From at Last.

The Country Traversed is a Blank Space on the Map—Many Valuable Discoveries.

PHILADELPHIA, Nov. 5.—A cablegram was received in this city last night from Dr. Donaldson Smith, dated Aden, bearing the one word, "Successful."

This news establishes the safety of the plucky Philadelphian, who for the past year and a half has been exploring the wilds of eastern Africa, and at the same time puts an end to the doubt as to his safety, which had been felt by those interested in the expedition for the past few months. Dr. Smith entered Africa on the eastern coast a year ago last June, passed across the country of the Galireas and Masai to Two Lakes, which had been recently discovered by another expedition; thence on to the Nyanzas (Albert and Victoria), his object being to carry out and complete the line of exploration from the lakes to the east coast, a distance of several hundred miles.

Dr. Smith was accompanied by 150 Africans, and at first by an Englishman who was subsequently obliged to return to London. Dr. Smith sent back some fine specimens of the regions for the Geographical society of London. Some months later he was reported to be pushing on by another party whom he met. Aside from these evidences of his safety there have been nothing until the arrival of his cablegram last night.

As the route which Dr. Smith has traversed is at the present time represented by a black space on the map of Africa the significance of the explorer's brief message will be realized immediately. He has undoubtedly made a great many discoveries of much value.

MISS VANDERBILT

And the Duke Will Have $250,000 a Year.

That is Her Marriage Settlement—The Duke in Luck—Information Refused.

NEW YORK, Nov. 5.—All of the parties directly interested in the marriage settlement of Miss Consuelo Vanderbilt met at the residence of Mrs. Vanderbilt on East Seventy-second street today. The duke of Marlborough and his lawyer, W. Milward, were met at the house by W. J. Vanderbilt, and ex-Judge Henry Howland, representing the family. The Blenheim deeds, which dated from the reign of Queen Ann, were handed Mrs. Vanderbilt's lawyer to be copied and the memorandum of the bride was read and commented upon. All information on the subject was refused, but it is said, around the hotel corridors, that the yearly income which Mr. Vanderbilt has settled upon his daughter will exceed $250,000.

LONDON, Nov. 5.—The Standard says that the marriage of the Duke of Marlborough to Miss Consuelo Vanderbilt will be celebrated on all the duke's estates. The bells will be rung in all the churches and wherever he has property, and the employes will be given a holiday.

The newspapers here generally print the reports from New York of the preparations for the wedding; but the Sun, referring to the so-called rehearsal of the ceremony, says:

"The rehearsal was essentially American and vulgar; no clergyman here would permit it."

The Westminster Gazette this afternoon prints a cartoon headed: "The duke's return from the land of dollars." The cartoon represents the duke of Marlborough reclining in the stern of a pleasure boat, with his bride seated on the top of a pile of dollars.

ASA LIBBY.

A Former Partner of A. T. Stewart Found Dying.

NEW YORK, Nov. 5.—Asa Libby, a retired merchant, who formerly was in business with A. T. Stewart, died suddenly at his home today. Mr. Libby was found unconscious in a room. A doctor was called in and it was found that the patient had ruptured a blood vessel. He never recovered consciousness and died soon after being found.

Summoned to Constantinople.

COLOGNE, Nov. 5.—A despatch to the Gazette of this city, from Berlin, says that Ahmed Twinf Pasha, the Turkish ambassador to Germany, has been summoned to Constantinople for consultation with the Turkish government, it is presumed, in regard to the eastern situation.

Joe Patchen Wins.

RUSSELL, N. C., Nov. 5.—The match race here today between John R. Gentry and Joe Patchen was won by the latter.

Fifteen Men Buried.

VIENNA, Nov. 5.—The German theater building at Vienna collapsed today, burying fifteen workmen in the ruins.

In the Rainy river region of Canada it is interesting to know from the government surveyor that the gold belt is at least 400 miles long.

It is plain now—what many suspected from the first—that Corbett and Fitzsimmons never wanted to fight at all.

WILD RUNAWAY.

A Frightened Horse Dashes Between Two Houses.

Then He Jumps a Back Fence, Wrecks a Buggy, Injures the Driver and Runs Three Miles.

An exciting runaway occurred on East Washington street, near J. B. Blaising's meat market. The horse was attached to a buggy and driven by a farmer, whose name could not be learned. The animal frightened at some object and turning, dashed over the sidewalk and down the garden walk, between two houses so close together that the hubs of the wheels scraped the sidings of the buildings. Then it leaped the back fence, leaving the vehicle on the inner side, a total wreck. The driver clung to the lines and was pulled over the fence and painfully though not seriously injured. The animal was not caught until it reached the farmer's home, two or three miles east of the city.

DESPONDENT FARMER.

J. R. Goshart Hangs Himself in a Cow Shed.

After an All Night Search His Body is Found—His Knees Nearly Touched the Floor.

Nickel Plate trainmen tell of a suicide which occurred Sunday night at Burkett, a hamlet on that line about forty-five miles west of this city. J. R. Goshart, a well-to-do farmer, became despondent, and at times slightly demented, through sickness. At 11 o'clock Sunday night he left his home and not returning in due time, his wife went outside the door and called his name several times. Receiving no answer, the woman became alarmed and aroused the neighbors. All Burkett turned out and engaged in a hunt for the missing man. At 5 o'clock yesterday morning his body was found suspended from a rafter in the cow shed loft. His knees were only about three inches from the floor, showing that the man had tied the rope about his neck and then fell forward and strangled himself. Goshart left a wife and three children, the eldest seven and the youngest three years old.

NEW SOCIAL CLUB.

Members of the Knights of Pythias Form One.

Some thirty members of the various Knights of Pythias lodges of the city have started the organization of a new social club, the purpose of which will be social amusement and the improvement of its members. No one will be admitted to membership except Pythian Knights. Until the adoption of a constitution and by-laws and the perfection of a permanent organization, the club will meet at the rooms of Phoenix lodge, in the Aldine block. After that they will secure rooms of their own and furnish them. The new club is composed of the very best young members of the Knights of Pythias and promises to be one of the most popular clubs of the city.

NEW BRASS BAND.

The Organization and Election of Officers.

Last evening a new brass band was organized in this city with the following members: William Schelferstein, Henry Langorh, Will Rupp, Fred Lenard, George Lenz, Henry Egge, William Miles, John Miles, Fred Mensen, William Dyhart, Charles Langorh, Charles Kaiser, Louis Schroeder, Charles Schroder, John Bayer. The officers to serve for one year were elected as follows: President, William Dyhart; secretary, Louis Schroeder; treasurer, John Bayer; librarian, Charles Schroeder; musical director, William Schneider. The band is composed of members who are experienced musicians and they have entered the field to compete with the older organizations.

The name of the new band is the Wayne Cadet band.

FARMERS' INSTITUTE.

Supt. W. C. Latta Issues Circulars to Officers and Speakers.

W. C. Latta, superintendent of the Farmers' institutes in Indiana, has issued his circular to officers and speakers, giving the schedules for institutes for the year 1895, under the auspices of the Purdue university school of agriculture.

The apportionment for local expenses this year will be $25, and it is expected that each place where an institute is held will provide a hall free of charge.

W. A. Fairfield is the chairman of the institute which will be held in this city on December 16 and 17.

BARN BURNED.

A Team of Horses Also Perish—Fierce Fire on East Berry Street.

A barn in the rear of the residence of Mrs. Amanda Dawson, No. 140 East Berry street, burned last night at midnight. The fire was a fierce one. A team of horses belonging to the Fort Wayne Furniture company perished. They were valued at $200. The loss on the barn was $150; covered by insurance.

Big Suits.

NEW ORLEANS, Nov. 5.—Suits have been filed against the New Orleans Brewing association by the State National bank for $21,000, by the Metropolitan bank for $113,000. In the first case attachments were issued and in the last named case the appointment of a receiver is requested.

Hang Six Negroes.

HAVANA, Nov. 5.—It is announced that the insurgents have hanged six negroes to trees in Pintabos, District of Cabarian, Province of Santa Clara. Near Guasimal, not far from Santa Espiritus, also in the Province of Santa Clara, the insurgents derailed a train by the use of a dynamite bomb. Three head of cattle, which with others loaded on the cars, were killed.

THE DEATH LIST.

Mrs. Eliza McLaren, of Wayne Township, is Dead.

Henry Reidt Passes Away at Portland—Death of Mrs. Elizabeth Shunk at Wanatah.

Mrs. Eliza McLaren died at her home in Wayne township, south of the city, yesterday noon from stomach trouble. She had been a sufferer for two years. Mrs. McLaren was sixty-five years old and leaves two sons. The funeral will be held at the residence at 2 o'clock tomorrow and later at the Prairie Grove chapel.

MADDEN.

Nellie, the three-months-old child of Mr. and Mrs. Martin Madden, No. 118 Francis street, died in spasms last night. The funeral will be held at the residence at 2 o'clock tomorrow afternoon.

REIDT.

Henry Reidt, formerly of this city, died yesterday at Portland, Ind. He was a brother of B. E. Reidt, the Grand Rapids engineer. He was thirty years of age and had for several years been a fireman on the Grand Rapids road. The remains were brought here today by Undertakers Schone & Veith and taken to the residence of B. E. Reidt, No. 54 Summit street.

SHUNK.

Mrs. Elizabeth Shunk, formerly a resident of this city, died at Wanatah, a small place west of this city on the Pittsburg road, yesterday. She was the mother of Rev. Father Shunk, who was recently ordained a priest in this city and who was stationed at Wanatah, where she resided with him. She was seventy-two years of age. The remains will be brought to this city early Thursday morning and will be exposed to the view of friends from 7 to 8 o'clock a. m. in the vestibule of St. Mary's church. The funeral occurs at that church at 9 o'clock Thursday morning.

CONSPIRACY IS CHARGED.

Petition for the Removal of the Trustee of an Indiana Concern.

WABASH, Ind., Nov. 5.—Application has been made by Solomon Wilson, of the Wabash Church and School Furniture company, for the removal of James Lynn, trustee, to whom the property of the company was assigned a month ago. Wilson, who was general manager, alleges that the financial difficulties were due to the mismanagement of the other directors, and that when the company became involved Mr. Lynn, who is a warm, personal friend of J. S. Daugherty, the president, was made trustee as part of a conspiracy to destroy the value of the business and freeze him (Wilson) out. It is also charged that the property, appraised at $55,000, is worth over $125,000.

FINED FOR PROVOKE.

John Edwards Pays for Trying to Work Conductor Groutt.

John Edwards, the man who tried to work Grand Rapids Conductor Groutt with an old cash fare check, by claiming he had paid his fare, as stated in THE SENTINEL yesterday, was tried in police court last evening and fined for provoke. He paid up.

This is an off year in politics and you can't even guess how the elections will go.

Hoosiers are simply interested spectators in the elections which are held today.

If you haven't already bet on the elections, don't do so, for in all probability you will be the fellow who will lose.

Fort Wayne is enjoying a real estate boom just now. This is a sure evidence that business prosperity has returned to us.

The states which hold elections today are given clear and pleasant weather. This means that a big vote will be polled.

If men took one-half the interest in religion that they do in politics the devil would have been rooted out of Fort Wayne, tooth and toenails, long ago.

The drought is injuring the growing wheat in this state. In many fields only a few specks of growing grain may be seen. What remains is withering for lack of moisture.

There are so many complications and purely local issues connected with the campaigns in most of the states holding elections today that it is almost impossible to make predictions as to the result. We can tell better how they are "going" when we have heard how they have "gone."

In a speech before the republican club at New York, Mayor Strong, of that city, gave the following as his opinion of Sunday closing: "My idea is that the saloons should open on Sunday about 2 o'clock and stay open till 5. I am not very particular about the exact hours. Then they ought to close till 7, and then open again till 11 o'clock, when they should be closed until Monday morning. That is the law I advocate and the one I will endeavor to have passed."

Lieutenant Governor Mortimer Nye, of Laporte, it is announced, is an avowed candidate for the democratic nomination for governor of this state. Mr. Nye has an interesting political career. He has been honored with prominent municipal positions, was a Cleveland elector in 1888, a member of the supreme court commission and a candidate for governor before the convention which honored Claude Matthews with the gubernatorial nomination. Mr. Nye was nominated for lieutenant governor by a decisive vote. He stands high in Masonic circles throughout the state, and has a large acquaintance, as well as enthusiastic personal following.

Preparations are making for the farmers' institute season. Every county in the state will have an institute under state auspices the coming winter, and many of the counties will hold independent meetings in addition. W. C. Latta, of Lafayette, who has the general management, says it is the desire to conduct the work in such a way as to make it in the highest degree helpful to the farming classes by imparting useful information, by inciting to greater effort and awakening a higher appreciation of the advantages and possibilities of rural life. The institute appointed for Allen county will be held on the 16th and 17th of December.

In the murder trials of Holmes and Durrant much of the evidence upon which they were convicted was circumstantial evidence. Circumstantial evidence, when perfect in its chain, is the strongest evidence that can be presented in the court of justice. Witnesses testifying to facts which have come under their observation may be false, or their testimony so colored as to do great injustice, but the chain of circumstances necessary to fasten the guilt of murder upon a prisoner must be so complete as to exclude the possibility of mistake. The strength of circumstantial testimony is simply the strength of its weakest link, but when link by link the chain is forged complete in its strength from beginning to end, it cannot mislead an intelligent jury.

The decline in interest in county fairs is owing to the fact that there have been no new attractions of late years. The public got tired of looking at big pumpkins and beets and red and green "samplers" forever. The fickle human mind demands ever something new. For the past year this seemed in a measure to be supplied by hitching a Midway plaisance to the county fair. The boys yelled over it, especially if they fancied they were doing something naughty when they gazed upon it. But now the implement manufacturers have made a declaration of war to the knife against the Midway plaisance. They say it draws people away from looking at their beautiful, bright machinery, and they will enlist the virtue and respectability of the land in opposition to the bad show. Between the threshing machine and the plaisance, however, we bet on the plaisance every time.

It is a pity that the families of American millionaires, those who have every opportunity to develop intellectual, moral and physical perfection, have, after all, no higher ambition than to astonish the gaping multitude by their display of mere money. Such an ambition is shared with them by the most vulgar and illiterate of the race.

FALL and WINTER OVERCOATS and SUITS.

THIS SEASON'S styles we mean. Don't let your Clothing speak of the past, but be up-to-date in fashion. Our extremely modest prices will enable you to do this, no matter how limited your purse may be. A warm Overcoat is a necessity.

A man don't look dressed and comfortable at this time of the year without a new Overcoat; neither does he feel so.

Ours are the neatest, dressiest, and best that we ever offered for the money. Shrewd men will look at them and save dollars this season.

It seems almost superfluous to say anything about our seasonable Suits when they speak so well for themselves. But if you don't know the changes in Clothing fashions since last Spring, our store is at your service.

No old Suits here.

No room for them.

In all the land, so far as we know, there's nothing to compare in variety and completeness, with our Suits this season. The prices have been changed too. Don't cost near so much now for good Clothing as formerly.

GOOD THINGS TO EAT.

True and Tried Recipes From Good Cooks.

No Reason Why Your Home Should Not Have Good Things—Watch This Department Every Tuesday.

HOW DO YOU TREAT YOUR HIRED GIRL?

The Hon. Carroll D. Wright makes it known in his statistics that the United States contains 1,000,000 hired girls. In view of this fact and of the hired girl's dependence for home happiness upon the Christian courtesy of the family in which she lives, we wish to ask the following questions of those who employ a hired girl:

How many of you say good morning and good night to her? How many of you greet her cordially on her return from an absence? How many of you speak of her in a homelike, family way to a guest when she enters the room, saying, "This is our Eda, who does so much to make our home a pleasant place," or something of the sort?

How many take special pains to make the work lighter on Sunday, by simplifying the meals and arranging for her to go to those meetings of her church, which are about the only variety she has?

Who can account for the fact that good Christian people will pass a hired girl just as if she was a block of wood, not giving her even so much of a greeting as they would a household dog or cat?

Why should the hired girl be called the servant? To be sure, one who serves does that which is altogether honorable, but the term has fallen into a sort of synonym for servitude; would it not be better, therefore, to use the expression, our helper? A good, strong Saxon word that has uplift in it and no sense of degradation.

How many of them are asked to go to family prayers, and with all their traits and inconsistencies are remembered in the prayer that is duly offered? How many are fitted out with Bibles, if they have none, and are taught to read our language, if of a foreign birth? How many look carefully after the hired girl's room—to see that she has nice springs in her bed, a soft mattress, a rocking chair and every comfort that is found in the other rooms of the home? How many speak to her kindly about an extra good baking of bread or a nice dish in which she may feel a natural pride? We are all glad of recognition, and yet we often forget that those in humbler situations of life are just as glad to be appreciated as we in ours. Noting that, perhaps, the one whose work lies at the base of the health and the wholesomeness of the home is more acceptable than many a woman who is the mistress of the home.

WHOLE WHEAT BREAD.

Pour 1 pint of boiling water into 1 pint of milk; when the whole is lukewarm, add one compressed yeast cake dissolved in ½ cup of warm water; add 1 teaspoonful of salt and sufficient whole wheat flour to make a batter that will drop from a spoon. Beat well for 5 minutes, cover and stand in a moderately warm place for three hours. Then add gradually whole wheat flour to make a dough. When sufficiently stiff, take it out on the bread board and knead until soft and elastic. It must not be sticky. Now form it into loaves, put each in a greased pan, cover and stand aside for one hour, and bake in a moderate oven one hour if in square loaves, or half hour in a quick oven if in long French loaves. This is the recipe I use in my own home. We, however, bake most in stick pans—each stick is 6 inches in length and 1 in diameter.—S. T. R.

HASH CAKE.

One-half cup of butter, 2 cups of sugar, 1 cup of sweet milk, 3 cups of flour, 2 teaspoons baking powder, whites of 5 eggs. Bake in 2 layers in square tins. Filling for cake, 1 cup of raisins (chopped), 1 cup of nuts of any kind you wish, not chopped very fine; make a boiled icing of 2 eggs, 2 small cups of sugar; put enough water in sugar to dissolve it, cook until it hardens by dropping in water. Beat this syrup into the beaten whites, then add raisins and nuts, spread thickly between layers and on top; cut in squares for the table.—Mrs. S. K.

HICKORY NUT CUSTARD CAKE.

Cream, 1 pound of sugar, ½ pound of butter, add five eggs beaten separately, 1 cup of sweet milk, 1 pound of flour, 3 teaspoons baking powder; flavor with lemon; bake in jelly pans. For custard, place 1 pint of milk in a tin vessel, set in boiling water; add 1 tablespoon of corn starch dissolved in a little milk, 2 eggs, ½ cup of sugar, 2 cups chopped hickory nut meats well mixed together in boiling milk, stir, put between the layers of the cake while both are warm. This is excellent. —Mrs S. K.

APPLES AND RICE.

This is a very nice dish for children. Pare, quarter and core 4 nice large apples, put them into a saucepan with ½ cup of sugar and 1 cup water, cover, cook slowly until tender but not too soft. Wash ½ cup of rice in cold water; drain and cover with boiling water. Cook half hour, watching carefully, or until all the water has evaporated. Turn the rice in the center of a flat dish, arrange around the apples and serve warm.—Aunt Annie.

GINGER COOKIES.

One pint of New Orleans molasses, 1½ coffee cups of butter, 2½ coffee cups of sugar, ½ cup hot water, 2 eggs, 1 tablespoonful of ginger, 1 heaping tablespoonful of soda dissolved in the hot water. Mix stiff enough for a soft dough. Bake in quick oven. Put all together in a large bowl; put soda in hot water, then stir until molasses foams, then put in the flour. These will keep two months in a crock or tin vessel and are splendid.—Mrs. S. K.

GINGER CAKE.

One-half cup sugar, 1 cup N. O. molasses, ½ cup butter, 1 teaspoonful each cinnamon, ginger and cloves, 2 teaspoonfuls soda in a cup boiling water, 2½ cups flour; add 2 well beaten eggs the last thing before baking. Can be baked in gem pans, or in layers and spread with icing; or put in fruit and you have a nice, cheap fruit cake.—Mrs. S. K.

CELERY SOUP.

Take 4 potatoes, boil and mash fine, 1 celery stock, cut in small pieces and stew until soft, butter size of an egg, salt and pepper, 3 pints water; stir all together and add 1 cup milk—is improved by adding 1 teaspoonful of Worcester sauce and 1 tablespoonful of catsup, but is good without.—Mrs. H. C. Hartman, Maple avenue.

APPLE FRITTERS.

Pare, core and chop ten good sized apples. Beat 2 eggs without separating, and ½ cup of milk, 1 teaspoonful salt and ⅔ of a cup of flour. Beat until light, add apples and 1 teaspoonful of melted butter; beat, add teaspoonful of baking powder. Mix and fry by dropping spoonfuls in hot fat. Serve with powdered sugar.—Good.

APPLES ON HALF SHELL.

Cut slices of bread into rounds, butter each and place them in a baking pan. Pare and core nice large apples; cut them into slices crosswise one inch in thickness, put one on each slice of bread, dust with granulated sugar and put in a hot oven. Bake 20 minutes, dish, cover with cream and serve.—Sallie.

CLAM SOUP.

One dozen or one pint of clams, 3 potatoes, 4 hard boiled eggs, 1 pint of milk, ½ pint of clam broth, add water to make a pint, 1 bunch of parsley cut fine; put potatoes in broth and cook. When done put in clams cut up fine and cook ten minutes; put milk and eggs in last.—Professional.

FRIED TURNIPS.

Pare and cut the new turnips into slices, crosswise, about a half inch thick. Throw them into unsalted water, simmer 20 minutes, drain. Dust with salt and pepper, dip into egg, and then into crumbs, and fry in smoking fat.—Cook.

FRIED APPLES.

Remove the cores from large ripe apples, cut them into slices ⅓ of an inch thick. Dust them with sugar, stand aside ten minutes. Dip each in eggs, then in cake crumbs and fry in oil. Serve with powdered sugar.—H. K.

SUET PUDDING.

One cup suet chopped fine, 1 cup sugar, 1 cup sweet milk, 1 cup chopped raisins, 3 cups flour, with 2 teaspoonfuls baking powder sifted in, salt and nutmeg to taste. Boil 1½ hours and serve while hot.—G. P.

SAUCE.

One cup sugar, ½ cup butter, 1 egg, 1 teaspoonful cornstarch; beat together and add 1 cup of boiling water; flavor with vanilla.—G. P.

TIMES ARE GOOD

When Many Real Estate Transfers Are Being Made.

The activity in the real estate market is one of the best of indications of good times and this shows itself in Fort Wayne by the many transfers of property now being made. The following is the list as taken from the books of County Recorder Geo. Fiekel, representing only the sales recorded with him since Saturday last:

Levi Crabil and wife sell to B. F. Harper lot 332 in Hamilton's fourth addition.

B. B. Robertson sells to A. D. and Jos. N. Mason the 50 feet west of east 50 feet west of Griffith street, between Superior street and the St. Mary's river.

Louis E. Banst and wife sell to Frank L. Markey lots 20 and 21 in Eckert's addition.

J. D. Bond sells lots 169 and 170, in Williams' addition, to Catherine Miller for $8,000.

P. A. Randall to J. C. and J. Lynch, lot 6 in McCulloch's addition for $1,600

E. W. Cook et al. to the Tri State Building and Loan association, lot 34 in Zollars' addition for $800.

H. M. Williams to Tri State Building and Loan association, lot 31 on East Creighton avenue, for $400

E. P. Williams to Tri-State Building and Loan association, lot 244 in Williams' addition, for $700.

L. F. Curdes to Allen County Loan and Savings association, lot 87 in Zollars and Swayne's addition, for $450.

Deputy sheriffs raided a gang of ramblers in the cut yards yesterday and arrested seven of them. Justice Hays sent them to board with the sheriff for fifteen days.

Should be Looked Into.

THOROUGH INVESTIGATION REQUESTED.

A BOLD ASSERTION.

Ever since Prof. Koch startled the world by promising to cure consumption with the Koch lymph and his complete failure to do so, the people have been looking for some discovery which would prove an absolute, certain cure for that dread disease. Over a quarter of a century ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, put in a claim for a medicine, which he had discovered and used, in his extensive practice, that would cure ninety-eight per cent. of all cases of consumption when taken in all its early stages. Time has proved that his assertion was based on facts gained from experience. His "Golden Medical Discovery" has cured many thousand people in all parts of the world, and Dr. Pierce invites all interested to send to him for a free book which gives the names, addresses and photographs of many prominent people who have willingly testified to the marvelous curative properties of his "Golden Medical Discovery." He has also written a book of 160 pages on "Diseases of the Respiratory Organs," which treats of all Throat, Bronchial and Lung diseases, also Asthma and Catarrh, that will be mailed by the World's Dispensary Medical Association of Buffalo, N.Y., on receipt of six cents in stamps, to pay postage.

Consumption, as most everybody knows, is first manifested by feeble vitality, loss of strength, emaciation; then local symptoms soon develop, as cough, difficult breathing, or bleeding from lungs, when investigation proves that tubercular deposits have formed in the lungs. It is earnestly advised that the "Discovery" be taken early and the latter stages of the disease can thereby be easily avoided.

To build up *solid flesh and strength* after the grip, pneumonia, ("lung fever"), exhausting fevers, and other prostrating diseases, it has no equal. It does not make *fat* like cod liver oil and its nasty compounds, but, *solid, wholesome flesh.*

HOW NAPOLEON LOST

The True and Real Secret of His Downfall.

Lack of Reinforcement Changed Destinies of Nations.

Battles Lost in Our Own War in Same Way.

Reinforcement of Both Power and Strength.

The Great and Vital Need Always Present.

Napoleon looked in vain for his general to appear when the tide of Waterloo was at its height. He did not come and that great Conqueror lost the field; France was checked; the fate of Europe was changed and the tide of human history found a new direction.

So in the long, fierce war of the Rebellion, many a field was lost or won as needed reinforcements came, or failed to come.

So it is in the natural world:—the shower grateful to the parched earth, the sunshine wooing the green shoot, the wind that cools or warms at the right time, all help keep nature fresh and beautiful. In the realm of health the same law prevails. There are parching drouths and destructive floods to be provided and guarded against; and when they come, they have to be robbed, as far as possible, of their effects.

Prevention in all these cases is better than cure.

Fare the battle in advance.

Provide the relief before it is needed.

It is less expensive and far more beneficial from every view.

Reinforce nature. Help her to keep normal and healthy.

Take care of the blood and nerves, and we shall have no fear of disease.

Dr. Greene's Nervura blood and nerve remedy has stood the test of many years for this purpose. It has no rival as a wonderful restorative. It has no equal in the purification of the blood, the strengthening of the nerves and for preventing all the ills which threaten at this season of the year.

Try it and be assured. It is the great reinforcement of strength, power and vigor of nerve, brain and body. It will make you well and strong.

Why waste time in trying uncertain and untried remedies, when here is a physician's prescription, a discovery made by the greatest living specialist in curing nervous and chronic diseases, Dr. Greene of 35 West 14th St., New York city. If you take this medicine you can consider yourself under Dr. Greene's direct professional care, and you can consult him or write to him about your case freely and without charge. This is a guarantee that this medicine will cure, possessed by no other medicine in the world.

SUNDAY SCHOOL WORKERS.

An Interesting Meeting Held in Perry Township.

The Perry township Sunday school organization convened at the M. E. church at Huntertown on Friday and Saturday, Nov. 1 and 2.

The first session was called to order at 7 p. m. by B. W. Hart, co-organizer, when H. Surfus, township president, took the chair and appointed A. Staley, secretary pro tem.

After singing and devotional exercises, B. W. Hart, in a very interesting way, presented "Sunday School Work in Allen County," after which J. W. Hursh gave an address on "The Ideal Teacher," which showed his earnestness and proficiency in all school work. The convention then adjourned until Saturday at 9 a. m.

The devotional exercises of the next session were led by A. D. Craig, after which the subject of "Grading in the Sunday School" was introduced and fully discussed by members of the convention.

Miss Sylvia Warcup then recited a selection. E. A. K. Hackett gave an "Address to Workers." Reports of schools were then called for, and five of the seven in the township responded, all reporting good work done. A nominating committee was then appointed by the president, when the convention adjourned until 1:30 p. m.

The devotional exercises of the last session were led by Rev. Lewellen, after which B. W. Hart gave an address on "Ways of Working," introducing many new thoughts.

A recitation by Master Warner was then listened to, and a duet by the Warcup sisters. Mr. Craig then gave an address on "Should Church Members and Parents Attend the Sunday School?"

The report of the nominating committee was then called for, which was as follows: Vice president, J. D. Gloyd; secretary, Miss Lavon Chapman; treasurer, John Warner; musical director, Miss Carrie Warcup. It was moved and carried that the report be adopted.

Pledges were then taken for support of Sunday school work in Allen county, and after singing by the M. E. choir, which had rendered music throughout the entire session, the convention adjourned sine die.

Lavon Chapman, Secretary.

ROUTINE BUSINESS

Transacted by the Board of Public Works at Yesterday's Meeting.

The board of public works was in session yesterday afternoon. Vouchers for the October expenses were signed. The assessment roll for an alley between High and North streets was approved, also the assessment roll for the opening of Jane street. The assessment roll for the vacation of an alley between Cedar and McCulloch streets from Summit street to Maumee avenue was laid on the table for further investigation.

Clerk You was instructed to open correspondence with a number of other cities for the purpose of ascertaining the terms upon which street railways are operated elsewhere. The board does this in order that it may arrive at a solution of the street railway problem in this city.

IN TEXAS

Occurred Two Bad Railway Wrecks Yesterday.

Engineer Instantly Killed—Fireman Scalded and Passengers Badly Shaken Up.

Dallas, Tex., Nov. 5—The southbound train on the Gulf, Colorado and Santa Fe, and Missouri, Kansas and Texas railroads both tried to make the crossing near the Packery at the same time at about 5:50 o'clock yesterday morning. The "Katy" engine got across first, and the engineer seeing that the Santa Fe engine was going to strike his train, very skillfully stopped the baggage car over the crossing to receive it. The "Katy" baggage car was smashed up and the smoker attached derailed and turned half over. The engine and the coaches remained on the track. The engine of the Santa Fe was derailed. Several members of the latter's crew and a number of passengers received nervous shocks and were considerably shaken up, but nobody was injured. Even the baggage agent on the "Katy" car, that was knocked into kindling wood, escaped uninjured.

The regular northbound passenger train on the Missouri, Kansas and Texas was wrecked yesterday about four miles from Waxahachie, between that place and Sterritt, which resulted in the engineer being instantly killed, the fireman scalded, and a number of passengers more or less injured, none seriously.

MASONIC SIGNS DON'T GO.

Remarkable Case of Contempt Alleged by a Hoosier Judge.

Anderson, Ind., Nov. 5—William H. Freeman was placed under arrest yesterday morning in the superior court under singular circumstances. He had a brother on trial. Judge Diven, who was on the bench, asserts that Freeman took his place beside the brother, and knowing that he (Diven) was a Mason, began to give him the Masonic signs, presumably to influence the court. He was ordered placed under arrest and he will come up today for a hearing. He is the principal stockholder in and manager of the hoop works, at Hemlock, Howard county. He denies having given any signs and will fight the case, a thing that may result in making public the Mason's signs.

Interesting Ceremony.

New Orleans, Nov. 5—The first ceremony of the kind in Louisiana, and the most imposing, will be the crowning of the statue of "Our Lady of Prompt Succor," at the Ursulines convent, on November 10. The statue will be crowned by Archbishop Janssens, of Texas. Other bishops who will participate in the ceremony are Mgr. Forest, of San Antonio; Mgr. Gallagher, of Galveston; Mgr. Verdaguer, of Laredo; Mgr. Dunn, of Dallas, and Mgr. Durier, of Natchitoches.

Couldn't Stand Upright.

June 16th, 1894.

THE DR. J. H. McLEAN MEDICINE CO.,
St. Louis, Mo.

GENTLEMEN: For about ten years I suffered with a pain in my back which I thought was caused by a strain. Sometimes it got so bad I could not stand upright or ride in my buggy. I read in your almanac of symptoms that I recognized as my own, which led me to the conclusion that my trouble was disease in the kidneys. I immediately began using

DR. J. H. McLEAN'S
LIVER AND KIDNEY BALM.

It proved to be the right medicine and reached the spot. I soon lost all pain and have better health than ever before. It is more than a year now since I quit using it and have not had a pain or sick day in all that time. It is certainly a wonderful medicine for the kidneys.

Economy In Fuel.

The Eureka Fuel Economizer is a scientific preparation which augments the intensity of coal and wood heat in the proportion of 33 per cent.

If the direction printed on each package is carefully observed, the Eureka will give to any ordinary or middling coal the same value as that of superior quality.

The Eureka prevents the shoots, the cinders and the formation of smoke, which may spoil, in an apartment, so many valuable articles, such as curtains, paintings, etc.

The Eureka burns any kind of gas which might destroy the breathable air.

The Eureka Economizer produces a heat more soft and more concentrated.

We guarantee that our preparation produces no injurious effect on the health, and does not affect in any way stoves, ranges, grates, etc.

To try it is to be convinced that our product is a triumph of success.

On receipt of 25c we will mail you a full size sample package, bearing very explicit direction charges prepaid.

ANOTHER LINK

In the Evidence Against the Kessler Train Robbers.

Brown Points Out the Spot Where the Papers Were Buried—Local Affairs.

Another link in the chain of evidence that one of the Kessler train robbers has been captured was established yesterday afternoon by the digging up of papers that were stolen at the time of the robbery. James Brown, who was arrested for the Chicago and West Michigan hold-up a few months ago and was brought to Albion last Saturday, gave conclusive evidence that he is one of the gang. He went with Sheriff Simon and Prosecutor Glatte to a spot on the farm of Lum Cain, about three miles east of the scene of the hold-up, and one mile north of the railroad, where, near a spring, he pointed to a log about two rods distant where he said the papers would be found. About a foot below the surface at the spot indicated the package was found. They were express papers and some money orders. The canvas sack had rotted away, and the outer edges of the papers were decayed, but many parts of them were plainly legible. Brown says it was at that place where he and the Smalleys stopped shortly after committing the robbery. At daylight they counted the money, about $16,000, and each took $5,000. Brown says Abe Smalley is in Montana. He is a thorough desperado, and his rule has always been never to be taken.

LEFT THE ARMY TO BECOME A BRAKEMAN.

Lieutenant Charles Hines, who left the United States army to enter the railway service, recently visited Washington and the Evening Star, of that city, devotes a column to a sketch of the young man's career. The paper states that the lieutenant began as a freight brakeman on the Big Four a short time ago and has already arisen to the position of yardmaster at Anderson, Ind. He believes that the railroad business will increase in importance with the growth of the country, and that one of the most marked advances in this line will be the development of great terminals. If this be true the yardmaster becomes a more and more necessary and important functionary in the great railroad system.

ELECTRICITY A COMMODITY.

Electric power is to become a commodity and be retailed in package and quantity to suit purchaser, the same as butter or sugar. A Chicago firm has organized for the purpose, with a capital stock of $10,000,000. From Niagara Falls the electric fluid is to be run into storage jars, corked up and shipped to the consumers. This vast force is estimated at $80,000 horse power—at least that is the alleged amount of power harnessed by the company which has been working at the task for some years. One of the patrons of the Chicago firm will be the North and West Side street railways.

FRICK'S BIG PURCHASE.

The H. C. Frick Coke company has purchased the property of the McClure Coke company for $4,000,000, thus virtually consolidating the coke interests of Pennsylvania and Ohio. It is believed that the result of the deal will be a rapid advance in the price of coke.

VOTED AID TO A RAILROAD.

At the election held Saturday, to determine whether $22,000 should be appropriated by Salamonie township, Huntington county, in aid of the proposed Indiana Central railroad, extending from Union City to Huntington, 618 votes were cast—328 for and 290 against the proposition. Considerable feeling was worked up among the voters, many of whom were bitterly opposed to subsidizing corporations.

BRIEF MENTION.

P. Walsh, painter at the east car shops, is sick.

J. B. Ryan and A. A. Greenich, Pittsburg firemen, are sick and off duty.

The anti-pass agreement of the western lines is to be continued another year.

Machinist Frank Frary, of the Wabash shops, has returned from his western trip.

L. Linker has been transferred from the Lafayette street works to the east car shops.

Herman Arens went to Fon Du Lac yesterday to set up a gas tank for the Kerr Murray works.

Conductor H. W. Billings and Brakeman Joe Hamilton, of the Nickel Plate, are off duty for a rest.

M. R. Rawn, Nickel Plate brakeman, has returned from Fort Seneca, Ohio, where he visited friends a few days.

Master Mechanic W. W. Atterbury went to Chicago this morning on business for the Pennsylvania company.

Inspector F. Lauer, of the Pittsburg, has gone to Valparaiso to relieve F. Shurick, whose mother died yesterday.

Thomas Sinclair, clerk in the Pittsburg paint shop, has moved from Butler street to 333 South Harrison street.

The railways of Pennsylvania give employment to 176,228 persons, and disburse annually to employes $99,183,991 55.

Ira Shives, who operates a circular saw in the Bass blacksmith shop, is off duty to attend the funeral of his grandmother.

Oscar B. Judy, assistant foreman of the Pittsburg blacksmith shop, was at Pullman yesterday on business for the company.

C. D. W. Hilker has a broken bone in his right hand and is absent from his post of duty in the Pittsburg lumber yards.

Col. Oran Perry, on November 1 commenced his twenty-first year as general agent of the Pennsylvania lines at Indianapolis.

Fireman F. V. McGinnis, of the Nickel Plate, has gone to Youngstown, Ohio, in response to a telegram announcing the death of his father.

Conductor Hilbish, who has charge of a Nickel Plate local freight between Leipsic and Bellevue, has taken a lay off and Conductor John McVey has his run.

Joe Harris came home yesterday from Dayton, Ohio, where he inspected some cars the Barney & Smith company built for the Pennsylvania company.

Frank Cairnes is again detained from his duties in the Pittsburg machine shop, his wife having suffered a relapse. Her illness has developed into typhoid malaria.

Under the improved methods of baling cotton, 50,000 pounds can be loaded in a car in lieu of 17,000 pounds, which is a great item when cars are as scarce as at present.

August Grensebach and H. C. Meyers, of the Pittsburg blacksmith shop, are off duty, the former on account of sickness and the latter to attend a funeral.

The Minnie Maddern troup left this morning for Jamestown, N. Y., going by way of the Grand Rapids to Decatur, thence by the Chicago and Erie to their destination.

B. H. Martin went to Knox yesterday to relieve A. O. Spayd, of the local freight running between Knox and Stony Island. Spayd will take a through freight run.

George H Seybold and Julius Laboub are two new names on the Nickel Plate's pay roll. The owners of the cognomens commenced work yesterday as roundhouse laborers.

Wm H. Bendure has resigned a position in the east car shops and returned to his old position in the Fort Wayne Furniture works, which he filled for seven or eight years.

The sick list at the Kerr Murray works yesterday contained the names of Otto Snyder, Conrad Seidel, August Tremmel, Charles Braden and H Engbers. None are seriously ill.

After a week's illness, J. H. Colice has returned to his duties in the Wabash shops.

Clark Orr, formerly of Orr Bros., the dealers in electrical supplies, has returned to his old position in the electric works.

Henry Mollett and Henry Swarts, patternmakers, have taken employment at the electric works. Business at the works is booming.

F. S. Hunting, chief of the engineering department of the electric works, has returned from a business trip in the south and west.

John Woodward is again an employe of the electric works and is engaged in Foreman P. Bosworth's room. For some months Mr. Woodward was in Elkhart.

The late heavy rains in Pennsylvania have enabled the Pennsylvania Railroad company to take off its water trains, which have been running several weeks to supply locomotives with water.

G. H. Wilcox, who resigned as painter in the Pittsburg shops with the intention of going to Portland, Ore., did not get any farther west than Chicago. He came back here Saturday and yesterday took a situation in the Bowser Oil Tank works.

Mrs. Adolph Wilde, of Chicago, is visiting friends on Smith street and looking for a house with the intention of moving down here. Her son is a fireman on the Pittsburg road and this city is his headquarters. He is urging his mother to come here to live.

John Niebel is one of the prosperous and hard working machinists in the Pittsburg shops. One of the evidences of his thrift is the purchase of a lot on East Williams street, upon which he is preparing to erect a seven room house, which, when completed, he will occupy.

It is stated that William Hogdon, who recently left the Baltimore and Ohio lines to become general freight agent of the Cleveland, Akron and Columbus, is to be appointed general freight agent of all lines owned by the Brice syndicate, under H. C. Parker, traffic manager.

Samuel Higgins, superintendent of motive power of the Lehigh Valley road, has commenced the building of a locomotive which he thinks is to be a record breaker. Several novelties are introduced in its construction. The engine will weigh 128,000 pounds; weight on drivers in working order, 90,000 pounds.

There was a happy gathering of twenty-five or thirty jolly people at the home of Mr. and Mrs. H. W. G. Heine, 141 Wallace street, last evening, the occasion being the celebration of the host's birthday. Music, dancing, cards and general social chat served to pass the early hours and at 11 o'clock lunch was served. Mr. Heine is a boilermaker in the Pittsburg shops.

Yesterday's shipments from the electric works included a 1,000 light alternating dynamo to Amesburg, 1,500-light dynamo to Battle Creek, Mich.; an 125-light arc machine to Providence, R. I., and a 3,000 light triphase alternating current machine to Utah. The latter dynamo is an immense affair, weighing over fifteen tons.

THUMB BADLY INJURED.

Mr. VanNest, an employe of the Olds works, bicycle rim department, had the misfortune to run a splinter in one of his thumbs to the depth of an inch and a quarter. The piece of wood was an eighth of an inch thick and it made a bad wound the full length of the thumb. Dr. L. T. Sturgis attended the unfortunate man.

MERCHANDISE BURNED.

A car in the eastbound local freight train, on the Wabash, caught fire at Gar Creek station, near New Haven, this morning and was completely destroyed, together with its load of merchandise. The freight train stood on a siding, giving the main track to No. 45, the westbound passenger train, but the heat of the burning car was so intense that the passenger conductor was afraid to run his train by lest it, too, caught fire. The train was, therefore, a half hour late in reaching this city. The loss to the railroad company will not be known until the value of the merchandise is learned.

MAN AND WOMAN INJURED.

Lake Shore trainmen and passengers on the train from the north, which reaches this city at 3:55 o'clock, yesterday witnessed a bad runaway at Stoners, a small station twelve miles from this city. The victims to the accident were an old farmer and his wife, whose name the trainmen could not learn. Their horse took fright at the train and ran away, throwing the old people out and wrecking the vehicle. When the train pulled out the poor old couple were still lying in the ditch as still as corpses and their overturned buggy laid partially over them. They were evidently badly injured, possibly killed.

THE FASHION PLATE.

Persian and ribbed velvet ribbons are among the novelties used for dress trimmings.

Wool braid with a corded edge is used in place of velveteen for the bottom of dresses.

"Chiffon brilliant" is a new substitute for chiffon. It comes in all colors and is very glossy.

The new capes for winter are made of velvet, not so full as they were formerly, and cut long enough to extend well over the hips, while additional warmth is given by a large fur collar.

Black satin petticoats, warmly lined with flannel and gored somewhat after the style of an umbrella, so that they button on to the lower edge of the corset, are indispensable additions to a stout woman's outfit.

Galloons, in many widths and varying prices, are used for trimming, and braiding on cloth gowns for morning wear is in vogue again. Basques and vests are braided all over in a pattern or with a simple coil on the edge.

The latest evening dresses are literal copies of the Marie Antoinette gown, with very full skirts gathered on to a low cut waist pointed in front and round in the back. The sleeves are two short puffs hanging like ruffles from the shoulder, and the hip pads are not omitted.—New York Sun.

Highly Contagious.

Cholly (reading paper)—Gwacious! The Pwince of Wales has a cold.

Chappie—My goodness! Send out for some cough medicine, deah boy, for both of us.—Truth.

A Saving Thought.

THE CARPET DEPARTMENT.

We like to tell about the new things in Carpets. Carpets are so handsome, and the new low prices bring the rich Axministers, Moquettes and Body Brussels within reach of almost every home.

We Show the Best Qualities,

Prettiest patterns and most stylish and artistic colorings. The carpets we sell wear and look well. Come and see the new attractions in this prettiest section of the store.

RUGS.

We make a showing of these useful and decorative floor coverings that will be of special interest at this time of the year. A new line, a large line of all kinds and manner of Rugs, imported and domestic, big and little.

Javanese Rugs.

Special attention is called to this new line, made by the little people seen at the Columbian Fair at Chicago. The Rugs are 5 feet long by two and a half wide, price $1.38. This low price should clean out the 5 bales in 24 hours.

Jardinieres.

You'll find these in the carpet room, with and without stands, all colors, all sizes, a big line.

38c each up.

New Dress Stuffs.

New bright goods of the high class order, all foreign made, fine novelties, scarce two can be seen alike at the big offering.

Boucle Mixtures, red and black, brown, blue, green and grey and black, 42 to 52 inches wide, 90c to $1 40.

Llama Cloths, black on colored grounds, 52 inches wide, 65c the yard.

Mohair Mixtures, in all colors, 40 to 52 inches wide. The finest collection shown this season, 85c to $5.00 yard.

Rare New Plaids.

Priestleys, black and white, grey and black, solid and broken plaids, the scarcest thing in the market, 50c to 85c a yard.

Bright Plaids.

34 inch half wool..........25c.
36-inch all wool..........37½c.
40 inch Silk and Wool.....75c.

These are all new, scarce as hen's teeth, got them only because of a watchful buyer. The pretty fabrics and the low prices are the wonder.

SATEENS for Comforts at 10c.

We don't believe another lot of pretty good Sateens at the price can be got again this season. Find these at low price dress counter.

LADIES' COMBINATION SUITS.

This store shows these popular under garments in such varities as to make buying of them a pleasing business.

An

Idea of the extent of our stock of fine business and dress suits and overcoats for men can be obtained by comparing what you find at SAM, PETE & MAX'S with what you can get in other stores. We have a larger stock of Fine Suits and Overcoats than you will see in any other two stores in the city. Our

Advertisement

To that effect can be implicitly relied upon. The greater number of our fine suits and overcoats were made up from designs created expressly for us by the largest and best manufacturers of fine clothing in America, and it

Is

A fact well known in Fort Wayne and throughout the section generally, that our fine clothing can not be duplicated by other houses, simply because they do not buy it. They do not buy it because they have no demand for it. When

A

Man buys a suit of clothes or an overcoat he wants to know that he is getting something cut in mode, in the prevailing fashion, no matter what price he pays for it. It costs no more to have the style and fit right than to have them wrong. We consider ourselves under

Contract

With the public to have both style and fit right at all times and have never yet been accused of violating our agreement.

A WORD ON HATS:

Don't be numbered among the foolish people who think that it costs $5 to own a first class Derby hat. It doesn't. The only difference between the high priced hat and the right priced hat is that in the crown of the former you get a fashionable hatter's name. The hats we sell at $3.50 and $3.00 are as good in every respect.

O. F. Bernhart, of Cleveland, is in the city. He is a bicycle racer and took part in the races here during centennial week.

Last Sunday steps were taken for the organization of a new branch of the Ancient Order of Hibernians in this city, to be known as division No. 3.

Mr. and Mrs. W. B. H. Potter, of Ashland, Ohio, will arrive here this evening and be the guests of their son, George E. Potter, of West Wayne street.

At a business meeting of the Wayne street Epworth League last evening, Miss Luella Boles retired from the vice presidency of the literary department and Miss Alice Hamil was chosen to fill the position.

Mrs. M. E. Leach, of Lasalle and Monroe streets, who has been sick for about eight months, was operated upon yesterday by Dr. W. H. Myers. The doctor opened her chest and removed a large quantity of pus and the patient is doing well today.

W. A. Sunday sent a dispatch this morning to Secretary McCaughey that he would not arrive until Saturday evening and would hold his first meeting Sunday. He requests all committees to meet him at the close of the Sunday afternoon meeting at the Y. M. C. A.

Dr. Dreyer, the city bacteriologist, made a report to the mayor yesterday regarding diphtheria in the city. He reports that there are but seven cases in the city. This would show that the disease is not so prevalent as it was a short time ago and the condition is one that is highly pleasing to the people.

Officers Fitchinger and Stell took R. L. Atterbury, the alleged confidence man, to Albion, Ind., this morning. It was in Noble county that the alleged swindle was committed. Atterbury is the man who worked the short-change racket on C. S. Latta, of this city, on a Grand Rapids train, as reported in THE SENTINEL yesterday.

Moellering & Son., of this city, did some public work in Hartford City and deposited a $500 check as a guarantee that it would be properly done. Now the city council has appropriated the check, claiming the work was not performed according to contract. Moellering & Son will contest the matter and there will likely be a big lawsuit.

Adolph Feustel, who drives one of the delivery teams for Grocer F. P. Mensch, was on Berry street Saturday night delivering groceries, when the horse became frightened, turned about suddenly and threw Feustel out of the vehicle. The wheels passed over his legs, bruising and skinning them badly but not breaking any bones. The horse was caught before any damage to the rig occurred.

Officer Foulks bears the appearance of having had an entangling alliance with a wind storm. He is now able to meet his most intimate friends without being recognized. The wind cannot blow through his moustache any more because he has no moustache now for to blow through. A few swift, skillful and artistic strokes of the barber's trusty razor made Officer Foulks a changed man.

The mission festivities of the German Reformed Emanuel's church Sunday were celebrated with much interest. The 335 chairs in the hall of the White block were all occupied in the morning and only ten were vacant in the evening. Dr. G. Schaaf spoke to the Sunday school in the morning, to the Ladies' Aid society in the afternoon and preached both morning and evening. The doctor spoke with perhaps a little more than his usual eloquence. All felt that they had enjoyed a great day. We hope there was some zeal awakened for the good cause of missions.

The promoters of live stock shows and fairs ought to stir their brains to find something new and inviting for next year, else such exhibitions will become in every sense flat, stale and unprofitable. Pleasing novelties in the way of their legitimate attractions, too, will be much better than fake side shows.

HOME-MADE CIGARS

Are Sold More Than Any Others In This City.

The Federation of Labor Committee Makes a Canvass of the City—Their Report is Favorable.

The committee sent out by the Federation of Labor to make a canvass of the city for the purpose of ascertaining the comparative amount of sales of homemade cigars and cigars that are shipped in from other places has completed its task.

A thorough and complete canvass was made. It is thought by the committee that nearly every dealer in the city who handles cigars has been interviewed upon the subject. The committee will make a report to the federation at the meeting next Friday night and the report will be a gratifying one.

It has been found by the committee that home made cigars have the largest sale and that the city at large is fair to union-made goods. The leading hotels handle outside cigars almost exclusively, their reason being, as stated by them, that the traveling public prefers them to local brands in any city. The down town drug stores also extensively handle outside goods. But the committee finds that away from Calhoun street the demand for home cigars is largest and the dealers carry very few of any other kind. Drug stores, groceries, cigar stores, etc., outside the center of the city and in the suburbs say they have very few calls for anything but home cigars. A few saloons carry outside cigars but they are nearly all kept in a show case and are offered for sale only when they are called for.

Taken in a general way the report of the committee is favorable and shows that the people of Fort Wayne are in favor of patronizing home industry and that they are fair toward union labor.

A Successful Concern

Does not say much. Its success is the best evidence of public appreciation.

Merely talking of low prices and exceptional bargains does not satisfy buyers—the "doing of it" is the thing that brings and holds the trade. Our success is the result of our honorable, consistent business methods. These are explained in the few words—honest work, honest prices, fair treatment.

We Have an Attractive Store,

We Display Substantial Goods;

Our Prices Are the Lowest.

When you buy from PICKARD BROS., you can always rely that the goods you have selected will be delivered—not something just as good—and our store is an immense one. Should you want a Bookcase, a Couch, a Parlor Suit, a Dining Table, a Lady's Desk, a Sideboard, a Parlor Table, a Bedroom Suit, or, in fact, any article essential to complete house furnishing, you should call upon us. See our line of

Ranges,
Cook Stoves,
Base Burners,
and Gas Heaters.

We are reaching out for your fall trade and we mean to get it if low prices and values are any object. Come in and let us talk the matter over.
